PRESS COMMUNIQUE.

Fort St. George, February 19, 1934.

No. 116.—The attention of the Madras Government has been drawn to a case which occurred recently, when a telegram was received in the Home Department of the Government of India intimating an intention to appeal to the Privy Council on behalf of a condemned prisoner who was due for execution some twelve hours after the receipt of the telegram. In that case, the execution was postponed, but it is clearly not possible for the Government of India to make a practice of dealing with such cases. The Government of India have, therefore, decided that communications of that nature, which are addressed to His Excellency the Viceroy or to any officer of the Government of India, will be ignored.

No. 61.—The following notifications of the Government of India are republished :—

DEPARTMENT OF INDUSTRIES AND LABOUR.

New Delhi, the 20th December 1933.

No. M. 1935 (1).—In exercise of the powers conferred by section 26 of the Indian Mines Act, 1923 (IV of 1923), the Governor General in Council is pleased to make the following regulations, the same having been previously published as required by sub-section (*1*) of section 31 of the said Act, namely :—

Regulations for Oil Mines.

1. (*1*) These regulations may be called the Indian Oil Mines Regulations, 1933.

(*2*) They shall apply to every oil mine other than an offshore subject to the Burma Oil Mine Regulations, 1918.

(*3*) All provisions in these regulations which refer to the Warden shall to the extent of such reference be applicable only within the Provinces of Burma.

2. In these regulations, unless there is anything repugnant in the subject or context—

(*a*) "the Act" means the Indian Mines Act, 1923 ;

(*b*) "the District Magistrate," in relation to any mine, means the District Magistrate of the District in which the mine is situated :

Provided that in the case of a mine which is situated partly in one district and partly in another, the District Magistrate for the purposes of these regulations shall be the District Magistrate authorized in this behalf by the Local Government ;

(*c*) "the Warden" means the officer appointed to be Warden under the Burma Oil fields Act, 1918, and includes an Assistant Warden ;

(*d*) "Form" means a form as set out in the Schedule ;

(*e*) "Schedule" means the Schedule to these regulations.

3. Nothing in these regulations shall be deemed to affect any power conferred upon the Local Government or any officer by or under the Burma Oil-fields Act, 1918

CHAPTER I.

RETURNS, NOTICES AND RECORDS.

4. (*1*) On or before the 31st day of January in each year the owner, agent or manager of every mine shall forward to the District Magistrate, and to the Chief Inspector and to the Warden annual returns in respect of the preceding year in the following forms :—

I, II, III, IV, V, VI and VII

(*2*) If any mine is abandoned or the working of any mine has been discontinued over a period exceeding three months, or if a change occurs in the ownership of any mine, the returns required by sub-regulation (*1*) shall be submitted, within one month from the date of abandonment or change of ownership or within four months from the date of discontinuance :

Provided that the Chief Inspector may by order in writing extend the period for the submission of such returns up to any date not later than the twenty-first day of January in the year following that to which they relate :

Provided further that nothing in this sub-regulation shall be deemed to authorise the submission of any return later than the twenty first day of January in the year following that to which it relates.

5. The notice required by section 14 of the Act shall be furnished in triplicate and shall specify the name and situation of the mine, the names and addresses of the owner and the manager, and, in the case of a new mine, the date on which it was opened. The District Magistrate shall, on receipt of the notice, forward one copy thereof to the Chief Inspector and one copy to the Warden.

6. When a mine has been abandoned, or the working thereof has been discontinued over a period exceeding two months, the owner of the mine shall, within seven days after the abandonment or within seven days after expiry of the said period, as the case may be, send to the Chief Inspector and to the Warden notice in writing specifying the name and situation of the mine, the name and address of the owner, and the date and cause of the abandonment or discontinuance.

7. When a mine is re-opened after abandonment or discontinuance, the owner, agent or manager shall, within seven days after the date of the re-opening, send to the District Magistrate notice in writing in triplicate, specifying the name and situation of the mine, the names and addresses of the owner and the manager, and the date of the re-opening. The District Magistrate shall, on receipt of the notice, forward one copy thereof to the Chief Inspector and one copy to the Warden.

8. When a change occurs in the name of, or in the ownership of a mine, a notice in writing of the change and of the date thereof shall be sent by the owner, agent or manager to the Chief Inspector and the Warden within seven days from the date of the change.

9. When any new appointment is made of an agent or manager of a mine, or any change of address of any agent or manager occurs, notice of the appointment or change and of the date thereof shall be sent by the owner, agent or manager to the Chief Inspector and the Warden within seven days from the date of the appointment or change.

10. When the ownership of a mine is transferred, the previous owner or his agent or manager, shall make over to the new owner all plans, books and other records required to be kept under the Act, and all correspondence relevant to the working of the mine with the Department of Mines and other Government departments.

11. If the owner, agent or manager of any mine intends to conduct or extend any mining operations under his control at or to any point within fifty yards of any railway subject to the provisions of the Indian Railways Act, 1890, or of any public work in respect of which this regulation is applicable by reason of any general or special order of the Local Government under clause (*a*) of section 29 of the Act, he shall, not less than sixty days before commencing such operations, give notice of his intention to the Chief Inspector and the Warden, and also, in the case of a railway, to the Railway Administration concerned or, in the case of any such public work as aforesaid, to such authority as the Local Government may by general or special order direct.

12. The notice to be given under regulation 11 shall specify the position of the workings of the mine in relation to the railway or public work in question, the manner in which it is proposed to carry out the intended new operations, and the limits to which it is proposed to carry the said operations, and shall include a plan showing the existing and the intended mining operations so far as they affect the railway or public work in question.

13. If the operations in respect of which notice is given under Regulation 11 are not commenced within 12 months from the expiry of the period of sixty days therein referred to, the notice shall be held to have lapsed and the provisions of that regulation shall apply as if no such notice had been given.

14. When any accident occurs in or about a mine causing loss of life, or serious bodily injury, or when an accidental explosion, ignition, outbreak of fire or irruption of water or other dangerous occurrence occurs in or about a mine, the owner, agent or manager of the mine shall forthwith inform the Inspector and the Warden by telephone or telegraph and shall also, within twenty four hours of the occurrence of such accident, explosion, ignition, outbreak, irruption or other dangerous occurrence send notice thereof in Form VIII to the District Magistrate or to the Sub-divisional Magistrate, and also to the Chief Inspector and the Warden.

15. If death results from any injury already reported as serious under Regulation 14 the owner, agent or manager of the mine, shall within twenty four hours of his being informed of the death send notice thereof to the District Magistrate or to the Sub-divisional Magistrate, and also to the Chief Inspector and the Warden.

CHAPTER II

PLANS.

16. The owner, agent or manager of every mine shall keep in the office of the mine an accurate plan and section or sections, properly linked in on durable paper, of the workings of the mine on a scale of not less than 100 feet to 1 inch, showing the workings up to a date not more than six months previously. The name of the mine and of its owner and the scale shall be shown on the plan and sections and the magnetic meridian with date shall be shown on the plan. The plans and sections shall also show all shafts, drives, crosscuts, winzes, rises, workings, and any tunnels and passages connected therewith. They shall also show the boundaries of the underground holdings, where possible, and all important surface features within the boundaries, such as railways, roads, rivers, streams and reservoirs which overlie any part of the workings or any point within 600 feet of any part of the mine workings, also the geological strike and thickness of the oil, gas and water sands with their dip at different points, and the known dislocations of the strata.

17. The owner, agent or manager of every mine shall, at any time on the request of the Chief Inspector or of

any Inspector, produce to him at the office of the mine such plans and sections, and also, on the like request, mark on such plans and sections the state of the workings of the mine at the time, and the Chief Inspector or Inspector shall be entitled to examine the plans and the sections, and to make or have a copy made of any part thereof for official purposes.

18. If any mine or any considerable part of a mine is abandoned, or the working thereof has been discontinued for a period exceeding one year, the person who was the owner of the mine at the time of the abandonment or discontinuance shall, within three months after the abandonment or within fifteen months after the discontinuance of working, as the case may be, send to the Chief Inspector and to the Warden sealed plans and sections of the workings of the mine up to the time of the abandonment or discontinuance:

Provided that if a change of ownership occurs after the abandonment or discontinuance and before the expiry of the three months or the fifteen months aforesaid, as the case may be, such plans and sections shall be sent forthwith.

19. After the expiry of ten years from the date of abandonment or discontinuance or working in any mine or in any considerable part of a mine or, where the consent of the owner of the mine for the time being has been obtained, prior to the expiry of the said period, the Chief Inspector or the Warden may, on such conditions as he thinks fit to impose, permit any person having interest in the said mine or part of the mine to inspect the plan or section of such mine or part of the mine sent to him in accordance with the provisions of Regulation 18 and he may, subject to such conditions as he thinks fit to impose, supply to any such person copies of the said plan or section.

CHAPTER III.

MANAGEMENT.

20. For every mine a book to be called the Inspection Book, shall be kept in which Inspectors may record their observations. The owner, agent or manager shall write or cause to be written at the commencement of the book:—

(a) the name of the mine,

(b) the names and addresses of the owner of the mine and of the agent, if any, and of the manager of the mine.

21. The owner or agent of every mine shall appoint a competent person of not less than 25 years of age to be manager of the mine. If any question arises whether any person so appointed is competent to perform the duties of manager, the decision of the Chief Inspector shall be final.

22. One person may be appointed manager of more mines than one, provided that the size of such mines and the distance between them is not so great as to preclude the proper and thorough performance by such manager of his duties in respect of each such mine. The decision of the Chief Inspector shall be final on any question arising out of this regulation.

23. Personal supervision shall be exercised by the manager. Where by reason of absence or for any other reason he is unable to perform the duties required of him by the Act, regulations, rules and by-laws, the owner, agent or manager shall authorise in writing a person, whom he considers competent, to act as manager of the mine.

24. The manager of every mine shall appoint in writing such number of competent persons as will be sufficient to secure a thorough supervision of all the operations in the mine and the enforcement of the requirements of the Act and of the regulations, rules and by-laws made thereunder. He shall assign to every such person his particular duties, shall on his appointment furnish to him a copy of the regulations, rules and by-laws which affect him and shall take all possible steps to ensure that every such person understands, carries out and enforces the provisions therein contained. Copies of all appointments made by the manager shall be kept in the office at the mine.

25. No person shall be appointed to carry out the inspection required by Regulation 50 unless he has attained the age of 21 years and has had sufficient practical experience of the working of mines and is competent to detect the presence of gas. If any question arises whether the person so appointed is competent to carry out the duties required of him, the decision of the Chief Inspector shall be final.

CHAPTER IV.

TRANSPORT OF PERSONS OR MATERIALS.

26. (1) At every mine where more than twenty persons are employed underground, or where in the opinion of the Chief Inspector it is necessary, there shall be at least two shafts or outlets, not nearer to one another than 100 feet, affixed at separate means of access and egress available to all the persons employed in the mine.

(2) Proper arrangements shall be made for persons to descend to, and ascend from, the mine at each of such shafts or outlets. If ropeways is necessary, it shall be kept on the works belonging to the mine and shall be constantly available for use.

(3) The foregoing provisions of this regulation with respect to shafts and outlets shall not apply—

(a) while a shaft is being sunk as an outlet is being made,

(b) to any workings for the sole purpose of making a certain mine on between two or more shafts or outlets, provided that not more than twenty persons are employed in making such communication.

27. At every shaft or incline where persons or materials are lowered or raised by means of machinery the following precautions shall have effect, namely:—

(a) A single linked chain shall not be used for lowering or raising persons in any working shaft or plane, except for short the coupling chain attached to a cage, skip, wagon or bucket.

(b) Ropes used in raising and lowering persons and all coupings or sockets and shackles shall be of the best materials and kept in good condition. The working load shall at no time be more than one-sixth of the breaking load of the rope. A similar spare rope shall always be kept in reserve at mines where there is only one hoisting shaft.

(c) There shall be attached to every machine worked by mechanical power, and used for raising and lowering persons, one or more brakes of sufficient power by themselves to hold the cage, skip, wagon or bucket, when loaded, at any point in the shaft, and a proper indicator (in addition to any mark on the rope) showing to the person who works the winch or the position of the cage, skip, wagon or bucket in the shaft; and if the drum is not on the winch shaft, there shall be an adequate brake on the drum shaft:

Provided that in the case of a shaft or winze not exceeding 100 feet in depth or a shaft or winze in course of sinking as much of this clause as requires an indicator shall not apply.

(d) Every opening on or in which persons ride in a working shaft shall be provided with a sufficient cover overhead, except—

(i) in that portion of a shaft which is being extended by sinking, or

(ii) where persons are employed at work in a shaft.

(e) Every working shaft used for the purpose of drawing minerals or for lowering or raising persons shall, if exceeding 150 feet in depth, be provided with proper means of communicating distinct and definite signals from the bottom of the shaft, and from every entrance for the time being in use between the surface and the bottom of the shaft, to the surface, and from the surface to the bottom of the shaft and to every entrance for the time being in use between the surface and the bottom of the shaft. There shall also be proper means of transmitting distinct and definite signals from the top of every winding shaft to the winding engine. All signals shall be transmitted by mechanical or electrical means:

Provided that if electrical means are used electrical apparatus shall be of a type approved by the Chief Inspector.

(f) (i) The first three principal signals shall be :—

One rap or bell	..	RAISE when engine at rest.
One rap or bell	..	STOP when engine in motion.
Two raps or bells		LOWER
Three raps or bells		MEN ready to ascend or descend.
Three raps or bells		IN REPLY. Men may cause the cage to alter course.

Provided that an alternative code may be used where the written permission of the Chief Inspector has been obtained.

(ii) Any other signals shall be in addition to, and shall not interfere with the foregoing.

(iii) A printed copy of the code of shaft signals shall be posted at the shaft top and at every inset, and also at the winding engine.

(g) Every working shaft used for lowering or raising persons by machinery, other than machinery operated by hand labour, shall, if it exceeds 150 feet in depth, be provided with guides to within not less than 100 feet from the bottom of the shaft.

(b) Adequate stationary lights shall be provided and used for working hours—

(i) at all places where persons have to work or pass regularly in the same line with sets of skips;

(ii) after dark at the tops of all working shafts and at all working stations used for raising and lowering persons.

(c) There shall be on the drum of every winding used for lowering or raising persons such devices to prevent rope slipping as may be approved by the Chief Inspector, and the rope shall be coiled on the drum, and there shall be at least two turns of the rope on the drum when the cage, bucket or box is at the bottom of the shaft.

(d) Every cage shall be provided with catches or some other suitable means to prevent rides from falling out, and shall, if used for lowering or raising persons, be covered in completely at the top and fenced in on the two sides in such a manner as to prevent persons or things from projecting beyond the sides, and shall be provided with suitable gates or other efficient means with a proper hand hold so that a person whose head can be easily reached by all persons in the cage.

(e) The manager, or a competent person or persons appointed by the manager for the purpose, shall once at least in every 24 hours, examine the chains of the external parts of the winding gear of the headgear, ropes, parts of the machinery and of the headgear, ropes, chains, engine, steel connections in the shafts and plumbs, ropes, guides, steel connections in the shafts and other suitable appliances of the mine which are in actual use, both underground and above ground, and, if in use, that twenty pounds are suspended to the hinge annually, and shall without delay make or cause to be written a full and accurate report of the result of such examination in a book to be kept at the mine for the purpose, and shall be signed and dated by the person who made the examination.

28. Not more than such number of persons as may be specified by the manager shall be allowed to ride in the same cage, tub, skip or the lift at one time and a notice specifying the authorised number shall be posted at the top of every shaft and at every level in a shaft.

29. No persons shall ride in a shaft on, or against, a loaded cage, skip, tub or box.

30. No person shall get on or off a cage, skip, tub or bucket used for lowering or raising persons after the same has been set in motion or leave it until it has been set the appointed stopping place; nor shall any person ride on the top or edge of any cage, skip, bucket or box except when engaged upon work in the shaft.

31. No person when ascending or descending a shaft, shall take with him any tools or other bulky materials, save when engaged in repairing the shaft or when otherwise specially authorised by the manager:

Provided that in the case of tools only, the manager may, by general order, permit the same to be carried.

32. Every person, when at or about the top or the bottom of a shaft shall obey the orders and directions of the shaft attendants on duty at the time.

33. Every whistle, whim or whip in use at a shaft or winze shall be provided with a stopper, lynch peg or other reliable holder.

34. The bucket, skip or any wagon in the cage shall not be filled up to such a height that any of the contents can fall out, and the bottom of the cage shall be kept clean.

35. When tools, wood, etc., with ends projecting over the top of the cage, skip or bucket are being lowered or hoisted, the projecting ends shall be securely fastened to the cage or box.

36. When the winding apparatus is not provided with some automatic contrivance to prevent overwinding, a gauge shall be fixed and marked on the indicator in such a way as to show when the cage or other conveyance is within a distance of twice the circumference of the drum from the completion of the wind, and when such cage or conveyance has reached such distance it shall not, of what it or the descending cage contains persons, be raised for the remaining distance at a speed exceeding three miles per hour.

37. In shafts exceeding 300 feet in depth, where persons are raised or lowered by machinery, suitable devices shall be fitted if, in the opinion of the Chief Inspector, such are required to prevent against the overwinding of cages, skips or other conveyance or to safeguard persons liable to be injured in the case of an overwind.

38. At the top of every incline on which the haulage, not being endless rope or endless chain haulage, is worked by mechanical power or gravity there shall be stop-blocks or other suitable contrivances in general use to prevent trams running away. All inclines and stop-blocks or other appliances, or such other appliance as the inspector may direct, shall be examined by a competent person at the commencement of each shift, and in the event of a runaway, shall be used before the first stop-blocks or a greater distance than the length of a tram of wagons. Sprags shall also be provided and used behind the wedging wagon or tram of wagons a locking, drag or other contrivance for preventing the wagon or wagons from running back.

39. Where wagons are moved by hand no person shall permit a wagon to run unattended, and, if sprags are necessary, a sufficient number shall be provided by the manager.

40. No person shall ride upon any tub, truck or wagon either underground or above ground without the permission of the manager.

MINE WORKINGS.

41. No operations shall, without the consent in writing of the Local Government, be carried out within a distance of 100 feet of the boundary of the mining property worked in accordance with these regulations, and if any doubt arises as to the position of the said boundary the Local Government may prohibit the person working the same from carrying on operations within a specified portion of the area held by him until such doubt has been removed by the decision of a competent authority.

42. The sides and roofs of all shafts, galleries, roads and working places shall be made and kept secure.

43. Except in cases where the geological conditions are sufficiently known and previous permission has been obtained from the Chief Inspector all mining operations shall be preceded by the boring of a pilot hole not less than thirty feet ahead of the face of the working. The aperture of every such pilot hole shall be fitted with a casing head, blow out preventer or other device executed in place and so constructed and maintained as to prevent any blow out of gas or oil. If in the process of drilling pilot holes or of mining oil or gas are encountered in such quantity or with such pressure as to make the continuance of operations dangerous to life or property, such work shall be stopped and shall not be resumed until the pressure has been released.

44. The permanent supports used within 200 feet of any shaft shall be entirely composed of non inflammable materials.

45. The lining of every shaft and of every convention which penetrates more than one sand whether such sand contains oil, gas or water or not shall be backed with cement or created in some other way so that the percolation or migration of fluids or gas through or behind the lining is effectually and permanently prevented.

46. Where any part of a mine is so situated that there is any danger whatever of an irruption of water into the mine, adequate protection against such an irruption shall be provided and maintained.

47. No mine or part of a mine shall be abandoned nor shall the working thereof be discontinued for a period exceeding two months unless all inlets from any oil sand or gas sand into the mine or part have been sealed off as far as is practicable so as to prevent the egress of oil or gas from the sand.

48. When a mine has been abandoned or discontinued for a period exceeding six months all openings into the mine shall be effectively sealed off at the surface.

49. No mine or other working shall be made below the level of the floor of the lowest gallery in the mine until such precautions for the preservation of the collection of gas and the safety of the workmen employed therein as the Inspector may prescribe have been taken.

50. (1) A competent person or persons appointed for the purpose by the manager shall within such time, not exceeding two hours before the commencement of work in a shift, inspect every part of the mine and shall ascertain the conditions in relation to gas, the presence of gas, ventilation, roof and sides and general safety are concerned. The result of every such inspection shall be recorded in a book kept at the mine for the purpose.

(2) A like inspection shall be made at least twice in the course of each shift, and at least once in every five hours during which the shift continues, of all parts of the mine, but it shall not be necessary to record the result of such inspections in a book unless the last inspection in a shift is the inspection required to be made under sub-regulation (1).

51. Every report shall be made by the person inspecting, either when underground or immediately on his return to the surface, and shall be a full and accurate report of the inspection, specifying whether or not, and where, if anywhere, noxious or inflammable gas was found and whether or not any and, if any, what defects in roof or sides and other sources of danger were observed. The report shall be signed by the person who made the inspection and shall state the date and time of the inspection and the date and time when the report was written.

52. No workman shall enter or be permitted to enter the mine until every part of the mine has been examined in the manner prescribed in sub-regulation (1) of Regulation 50.

53. Every place where work is carried on or where men are stationed or pass shall be placed under the charge of a competent person appointed by the manager or under-ground manager.

54. If any part of a mine is found to be unsafe, all persons except those engaged in making it safe in removing the danger shall be withdrawn immediately from the dangerous area, and all approaches to the area shall be securely fenced so as to prevent unauthorised persons entering it until the danger has been removed.

55. No person shall work in any place other than a place in which he has been ordered to work by an official of the mine or by any person in whose charge he has been placed by an official of the mine.

CHAPTER VI.

VENTILATION AND LIGHTING.

56. An adequate amount of ventilation shall be constantly produced in every mine to dilute and render harmless inflammable and noxious gases to such an extent that the working places of the shafts, levels and workings of the mine, and the travelling roads to and from those working places, shall be in a safe state for persons working or passing therein. If the percentage of inflammable gas in the main return airway exceeds 0·5 per cent the mine shall be deemed to be unsafe and the steps prescribed by Regulation 54 shall be taken.

57. Means shall be provided on the surface for reversing the ventilation if and when required.

58. At least once in every week the quantity of air in the main air currents and splits shall be measured, and at least once in every twenty-four hours a sample of the air in the main return airways shall be taken and analysed, and records of the mine shall be maintained in a book to be kept at the mine.

59. Electric lamps connected to a lighting or power circuit shall not be used underground in the return airway or at any point more than 200 feet from the bottom of the downcast shaft. If it is the intention to reverse the direction of the air current the supply of electric current to such lamps shall first be cut off and the lamps shall be done in the event of a failure of the air current.

Provided that the Chief Inspector may, by order in writing, and subject to such conditions as he may impose permit the use of self contained lighting apparatus in which electric lamps are supplied from a generator operated by compressed air. All such apparatus shall be of a type approved by the Chief Inspector.

60. Except as provided for in Regulation 59 no lamp other than an electric safety lamp of a type approved by the Chief Inspector for the use in all mines shall be used in a mine.

61. (1) All safety lamps shall be kept in a lamp-room and shall be in the charge of a lamp-man authorised in writing for the purpose by the manager.

(2) All safety lamps in ordinary use shall be numbered and each record shall be kept of the persons to whom the lamps are issued (but the use of any particular lamp on any time be identified from the record.

(3) The lamp man shall examine and lock securely all safety lamps before they are taken into the workings for use, and such lamps shall not be used until they have been so examined and found to be in safe working order and securely locked.

62. The banksman or other competent person appointed by the manager for the purpose shall examine every safety lamp at the surface immediately before it is taken underground for use and shall secure himself as far as practicable from external observation that each lamp is in safe working order and securely locked.

63. (1) No safety lamp shall be unlocked underground, and unlocking on the surface shall only be done at the lamp-room.

(2) No person other than a person authorised by the manager to examine and lock safety lamps shall take or give out for use any safety lamps or unlock or open or attempt to unlock or open any safety lamp.

64. (1) No person shall have in his possession when underground any unlocked safety lamp, naked light, match, smoking apparatus, or any apparatus of any kind for striking a light, and if it appears to any person that any safety lamp in the possession is defective or insecure he shall at once remove it from the mine and return it to the person authorised to issue safety lamps.

(2) With the object of preventing any substance such as matches or smoking appliances being taken into the mine the manager shall arrange for the systematic search of every person immediately before such person enters the mine; and no person shall enter or be permitted to enter the mine until such search has been made. The method of search shall be one which has been approved by the Chief Inspector.

65. No person shall wilfully damage, or improperly use, or by improper means extinguish, any safety lamp.

66. In any underground part of the mine where adequate stationary lights are not in use, every person shall carry a light.

CHAPTER VII.

PRECAUTIONS TO PREVENT FIRE AND EXPLOSIONS.

67. Explosives shall be used in or about a mine only with the permission of the Chief Inspector and subject to such conditions as he may impose.

68. Electricity for power purposes shall not be used underground except with the consent of the Chief Inspector and under such conditions as he may approve.

69. Air from air compressing plant shall be cleaned and freed from all fumes before being used underground.

70. (a) An area on the surface round the top of each shaft or entrance to a mine shall be securely fenced so as to prevent the ingress of any persons except through gates. The fence shall not be placed nearer than 150 feet from the shaft or entrance.

(b) Areas on the surface used for the purpose of dumping sand containing oil shall be securely fenced so as to prevent the ingress of any person except through gates.

(c) Such areas shall be known as danger areas, and notices to that effect shall be displayed round each such area.

71. (a) No person shall enter any danger area without the permission of the manager.

(b) Within any danger area—

(i) no person shall have in his possession any match, smoking apparatus or means for striking a light;

(ii) no person shall light or cause or permit to be lighted or used any fire or naked light;

(iii) an inflammable material shall be stored;

NOTE.—Nothing in this sub-regulation shall prohibit the dumping of sand containing oil in a danger area separate from a danger area surrounding a shaft.

(c) except for the materials used in the construction of a temporary sinking derrick, no inflammable material shall be used in any building or other construction;

(d) all electric transmission lines shall be armoured or enclosed in pipes;

(e) all electric motors shall be flame-proof.

72. The bottom of every shaft shall be kept free from accumulation of oil or gas.

73. All oil pipes whether below or above the surface shall be inspected daily and constantly maintained in an oil-tight condition.

74. Oil collected or released in the process of mining or by leakage from any pipe line shall be continuously collected and removed to the surface in receptacles with oil-tight and gas-tight covers or by pumping through pipe lines.

75. Main oil reservoirs shall be situated not less than 150 feet from any working shaft and not less than 30 feet from any travelling road or airway, and shall be shut off so as to prevent danger from fire.

76. Reasonable precaution shall be made to prevent an outbreak of fire in the mine or the spread of fire. Fire extinguishers shall be provided and placed at important points in the mine. Fire extinguishers shall be tested and examined at intervals not exceeding one month. When in the opinion of an Inspector the provisions made for the above purpose are inadequate, he may require such additional provision as he shall specify to be made.

77. The owner shall maintain such specially trained safety staff and equipment as may from time to time be prescribed by the Chief Inspector.

78. Plans and specifications showing the lay-out and dimensions of all permanent cut and plat pipe lines and plant shall be submitted to the Chief Inspector, and the work of construction shall not be commenced until his sanction has been obtained.

CHAPTER VIII.

MISCELLANEOUS.

79. (1) Every entrance to a mine from the surface, and the top and all entrances between the top and the bottom, including the mouth of any level of every working, ventilating, or pumping shaft, and the top of every open communication, shall be kept properly fenced:

Provided that any fence may be temporarily removed for the purpose of repairs or other operations, if proper precautions are used.

(2) Shafts temporarily or permanently out of use and any place in or about an excavation which is dangerous shall be kept properly fenced.

80. (1) Every fly-wheel and all exposed and dangerous parts of the machinery used in and about a mine shall be kept securely fenced.

(2) Efficient guards shall be provided for such parts of any machinery and any electrical conductors as may be a source of danger.

81. Where it is necessary to prevent danger to the public every bank or ravine or shaft be securely fenced.

82. (1) Every person, when in charge of any machinery, apparatus or appliance used in or about a mine, observes any defect or dangerous flaw therein, he shall immediately report the fact to the manager, engine-wright or other responsible official.

83. Every person shall strictly comply with all lawful orders issued by the manager or such other official as may be empowered by the manager to issue the same.

84. No person occupying any position of trust in or about a mine shall depute another person to do his work without the sanction of the official to whom he is subordinate; and no such person shall absent himself without having previously obtained permission from such official for the time of his absence or without having been relieved by a competent person.

85. No person shall negligently or wilfully do anything likely to endanger life or limb in the mine or negligently or wilfully omit to do anything necessary for the safety of the mine or the persons employed therein.

86. No person shall damage, destroy or improperly interfere with anything provided for or used in the working of the mine.

87. No person shall remove or pass through any fence, or remove or pass any danger-signal unless so specially authorised by the manager or an official empowered by the manager in that behalf.

88. No person shall sing underground.

89. If any person required by these regulations or by any rule or bye-law made under the Act to make any report is unable to write, he shall be present when his report in written for him, and shall have it read over to him, and shall attach his thumb mark to it. The person writing the report shall also sign his name at the end together with a statement that it has been read over to the person for whom it was written.

90. The Chief Inspector may, at his discretion, and under such conditions as he may think fit, grant exemption from any of the foregoing regulations.

Persons employed during the year ending on 31st December 19 , and wages paid for work done in December 19 .

Classification	Aggregate number of daily attendances during the year of persons permanently and temporarily employed.	Number of days worked during the year.	Daily average number of persons employed is calculated by dividing the aggregate number of attendances by the number of days worked during the year.	Average hours worked per week during the year.	Aggregate number of daily attendances in December.	Total amount paid in wages for work done in December.	Average daily earnings in December as calculated by dividing the amount in column 7 by the number of attendances in column 6.
1	2	3	4	5	6	7	8
A.—Underground (i.e., in places lying beneath the super-jacent ground). Males— Overmen and/or sirdars .. .. Miners .. .. Leaders .. .. Skilled labour not in clothed gloves. Unskilled, labour and inclined above.							
Total (males) ..							
B.—Surface (i.e., not in the vicinity of the mine including all subordinate officials and persons employed in sidings, loading wharves, private railways and surface tramways and also in smithy). Males— Clerical and supervising staff (or should the super-vising staff). Skilled labour .. Unskilled labour ..							
Total (males) .							
Females . ..							

NOTE.—Where workmen are paid through the contractors, the sums entered in column 7 should be the sums paid by the contractors to the workmen, so far as these can be ascertained.

Notice of Accident.

From

To

THE CHIEF INSPECTOR OF MINES,

Through the District / Subdivisional Magistrate of..... dated 19 .

Sir,

I have the honour to furnish the following particulars of

a fatal accident
a serious accident
an accidental explosion of firedamp
an outbreak of fire
an irruption of water
a well getting out of control

which has occurred at the ..... Mine

1 Situation of the mine (village, station, district, province).			
2 Name and postal address of owner			
3 Name and sex of persons—		Age.	Occupation.
Killed.	Injured.		
4 Date and hour of the occurrence.			
5 Place of the occurrence.			
6 Cause and description.			
7 Classification of accident.*			
8 Nature of injury and, if fatal, cause of death.			

I have the honour to be,
Sir,
Your most obedient servant,

Owner.
Agent
Manager.

* Under one or other of the following heads, namely :—

(1) Explosion and ignition of vapour in flammable gas or oil; (2) falls of roof; (3) falls at side; (4) in shafts (overwinding); (5) in shafts (in pit and not in levelling); (6) in shafts (whilst ascending or descending by machinery); (7) in shafts (falling down shaft); (8) in shafts (in sinking level shaft); (9) in shafts (miscellaneous); (10) suffocation by gases; (11) by explosives; (12) irruptions of water; (13) haulage; (14) by underground machinery; (15) accidents underground; (16) by surface machinery; (17) boilers, or pipes connected; (18) on railways or tramways belonging to the mine; (19) by electricity; (20) by wells getting out of control; (21) miscellaneous; (22) on surface.

No. M.-1083 (3).—In exercise of the powers conferred by section 29 of the Indian Mines Act, 1923 (IV of 1923), the Governor General in Council is pleased to make the following regulations, the same having been previously published as required by sub-section (1) of section 31 of the said Act, namely :—

Regulations for the Lanywa Oil Mine.

1. (1) These regulations may be called the Lanywa Oil Mine Regulations, 1933.

(2) They shall apply to the oil mine in the area granted under mining lease to the Indo-Burma Petroleum Company, Limited, situated in the Lanywa village tract in the Pakokku district and east thereof in the Magwe district of Burma.

2. In these regulations, unless there is anything repugnant in the subject or context—

(a) "the Act" means the Indian Mines Act, 1923;

(b) "the District Magistrate" means the District Magistrate of the Pakokku district;

(c) "the Warden" means the officer appointed to be Warden under the Burma Oil-fields Act, 1918, and includes an Assistant Warden;

(d) "Form" means a form set out in the Schedule;

(e) "Schedule" means the Schedule to these regulations.

3. Nothing in these regulations shall be deemed to affect any power conferred upon the Local Government or any officer by or under the Burma Oil-fields Act, 1918.

CHAPTER I

Returns, Notices and Records.

4. On or before the 31st day of January in each year the owner, agent or manager of the mine shall forward to the District Magistrate, to the Chief Inspector and to the Warden annual returns in respect of the preceding year in the following forms :—

I, II, III, IV, V, VI and VII.

5. When any new appointment is made of the agent or manager of the mine, or any change of address of the agent or manager occurs, notice of the appointment or change and of the date thereof shall be sent by the owner, agent or manager to the Chief Inspector and the Warden within seven days from the date of the appointment or change.

6. When any accident occurs in or about the mine causing loss of life, or serious bodily injury or when an accidental explosion, ignition, outbreak of fire, irruption of water or other dangerous occurrence occurs in or about the mine, the owner, agent or manager of the mine shall forthwith inform the Inspector and the Warden by telephone or telegraph and shall also, within twenty-four hours of the occurrence of such accident, explosion, ignition, outbreak, irruption or other dangerous occurrence send notice thereof in Form VIII to the District Magistrate or to the Subdivisional Magistrate, and to the Chief Inspector and the Warden.

7. If death results from any injury already reported as serious under Regulation 6, the owner, agent or manager of the mine, shall, within twenty-four hours of his being informed of the death, send notice thereof to the District Magistrate or to the Subdivisional Magistrate, and to the Chief Inspector and the Warden.

CHAPTER II.

Plans.

8. The owner, agent, or manager of the mine shall keep in the office of the mine an accurate plan and section or sections properly inked in on durable paper, of the workings of the mine on a scale of not less than 100 feet to 1 inch, showing the workings up to a date not more than six months previously. The name of the mine and of its owner and the scale shall be shown on the plan and sections and the magnetic meridian with date shall be shown on the plan. The plans and sections shall also show all shafts, drives, crosscuts, winzes, rises, excavations,

of any tunnels and passages connected therewith. They shall also show the boundaries of the underground workings, when possible, and all important surface features within the boundaries, such as railways, roads, rivers, streams and watercourses which overlie any part of the workings or any point within 600 feet of any part of the mine worked in, also the general strike and thickness of the soil, gas must be distinguished with short dips at different points, and the known subdivisions of the strata.

9. The owner, agent or manager of the mine shall, at any time on the request of the Chief Inspector, or of any Inspector produce in him at the office of the mine such plans and sections, and also, on the like request, mark on such plans and sections the state of the workings of the mine at the time; and the Chief Inspector or Inspector shall be entitled to examine the plans and the sections, and to make or have a copy made of any part thereof for official purposes.

10. If the mine is abandoned, or the working thereof has been discontinued over a period exceeding one year, the person who was the owner of the mine at the time of the abandonment or discontinuance shall, within three months after the abandonment or within fifteen months after the discontinuance of working, as the case may be, send to the Chief Inspector and to the Warden accurate plans and sections of the workings of the mine up to the time of the abandonment or discontinuance.

11. The owner, agent or manager shall submit to the Warden a plan showing the exact site of every well or boring it is intended to drill.

CHAPTER III.

MANAGEMENT.

12. A book to be called the Inspection Book, shall be kept at the mine in which Inspectors may record their observations.

13. The owner or agent of the mine shall appoint a competent person of not less than 23 years of age to be manager of the mine. If any question arises whether any person so appointed is competent to perform the duties of manager, the decision of the Chief Inspector shall be final.

14. Personal supervision shall be exercised by the manager. Where by reason of absence or for any other reason he is unable to perform the duties required of him by the Act, regulations, rules and bye-laws, the owner, agent or manager shall authorise in writing a person, whom he considers competent, to act as manager of the mine.

15. The manager of the mine shall appoint in writing such number of competent persons as will be sufficient to secure a thorough supervision at all the several parts of the mine and the enforcement of the requirements of the Act and of the regulations, rules and bye-laws made thereunder. He shall assign to every such person his particular duties, shall on his appointment make over to him a copy of the regulations, rules and bye-laws which affect him and shall take all possible steps to ensure that every such person understands, carries out and enforces the provisions therein contained. Copies of all appointments made by the manager shall be kept at the office at the mine.

16. No person shall be appointed to carry out the inspection required by regulation 37 unless he has attained the age of 21 years and has had sufficient practical experience of the working of mines and is competent to detect the presence of gas. If any question arises whether the person so appointed is competent to carry out the duties required of him, the decision of the Chief Inspector shall be final.

CHAPTER IV.

TRANSPORT OF PERSONS OR MATERIALS.

17. (*a*) There shall be at least two shafts or outlets, not nearer to one another than 100 feet, affording separate means of ingress and egress available to all the persons employed in the mine.

(*b*) Proper arrangements shall be made for persons to descend to, and ascend from, the mine at each of such shafts, or outlets.

18. At every shaft or incline where persons or materials are lowered or raised by means of machinery the following provisions shall have effect, namely:—

(*a*) A single linked chain shall not be used for lowering or raising persons in any working shaft or plane, except for the short coupling chain attached to a cage, skip, wagon or bucket.

(*b*) There shall be attached to every machine worked by mechanical power, and used for raising and lowering persons, one or more brakes of sufficient power by themselves to hold the cage, skip, wagon or bucket, when loaded, at any point in the shaft, and a proper indicator (in addition to any mark on the rope) showing to the person who works the machine the position of the cage, skip, wagon or bucket in the shaft; and if the drum is not on the crank shaft, there shall be an adequate brake on the drum shaft:

Provided that in the case of a shaft or winze not exceeding 100 feet in depth or a shaft or winze in course of sinking no brake of less strength than is required in this clause shall not apply.

(*c*) Every apparatus or gin in which persons ride in a working shaft shall be provided with a cable not made or steel wire, and:—

(*i*) In that portion of a shaft which is being extended by sinking, or

(*ii*) Where persons are employed at work in a shaft.

(*d*) Every working shaft used for the purpose of drawing minerals or for lowering or raising persons at all, if exceeding 150 feet in depth, be provided with proper means of communicating distinct and definite signals from the bottom of the shaft, and from every entrance for the time being in use between the surface and the bottom of the shaft, to the surface, and from the surface to the bottom of the shaft, and to every entrance for the time being in use between the surface and the bottom of the shaft. There shall also be proper means of transmitting distinct and definite signals from the top of every winding shaft to the winding engine. All signals shall be transmitted by mechanical or electrical means:

Provided that if electrical means are used electrical apparatus shall be of a type approved by the Chief Inspector.

(*e*) (*i*) The first three or principal signals shall be:—

One rap or bell	..	Raise when engine at rest.
One rap or bell	..	Stop when engine in motion.
Two raps or bells	..	Lower.
Three raps or bells	..	Man ready to ascend or descend.
Three raps or bells	..	In reply. Men may enter the cage or other conveyance.

Provided that an alternative code may be used where the written permission of the Chief Inspector has been obtained.

(*ii*) Any other signals shall be in addition to, and shall not interfere with the foregoing.

(*iii*) A printed copy of the code of shaft signals shall be posted at the shaft top and at every inset, and also at the winding engine.

(*f*) Every working shaft used for lowering or raising persons by machinery, other than machinery operated by hand labour, shall, if it exceeds 150 feet in depth, be provided with guides to within not less than 150 feet from the bottom of the shaft.

(*g*) Adequate statutory lights shall be provided and used during working hours:—

(*i*) at all places where persons have to work underground in the immediate vicinity of shafts;

(*ii*) after dark at the tops of all working shafts and at all winding engines used for raising and lowering persons.

(*h*) There shall be on the drum of every machine used for lowering or raising persons such flanges, horns or other appliances as may be sufficient to prevent the rope from slipping. The rope shall be securely fastened to the drum, and there shall be at least two turns of the rope on the drum when the cage, skip, bucket or box is at the bottom of the shaft.

(*i*) Every cage shall be provided with catches or some other suitable contrivance to prevent tubs from falling out, and shall, if used for lowering or raising persons, be covered in completely at the top and closed in at the two sides in a manner sufficient to prevent persons or things from projecting beyond the sides, and shall be provided with suitable gates or other rigid doors and with a rail head bar fixed in a position where it can be easily reached by all persons in the cage.

(*j*) The manager, or a competent person or persons appointed by the manager for the purpose shall, once at least in every 24 hours, examine the state of the external parts of the machinery and of the head-gear, rope chains, cages, guides, and conductors in the shafts and other similar appliances of the mine which are in actual use, both underground and aboveground, and shall without delay write or cause to be written a full and accurate report of the result of such examination. Every such report shall be recorded in a bound book to be kept at the mine for the purpose and shall be signed and dated by the person who made the examination.

19. Not more than such number of persons as may be authorised by the manager shall be allowed to ride in the same cage, tub, skip or bucket at one time, and a notice specifying the authorised number shall be posted at the top of every shaft or at every inset in a shaft.

20. No person shall ride in a shaft on, or against, a loaded cage, skip, bucket or box.

21. No person shall get on or off a cage, skip, tub or tram that used for lowering or raising persons while the same is in motion nor shall any person ride on the top or edge of any cage, skip, bucket or tub except when engaged upon work in the shaft.

22. No person, when ascending or descending a shaft, shall take with him any tools or other bulky materials, save when engaged in repairing the shaft, or when otherwise specially authorised by the manager:

Provided that, in the case of tools only the manager may, in general orders, permit the same to be carried.

23. Every person, when at or about the top or the bottom of a shaft, shall obey the orders and directions of the shaft-men in charge on duty at the time.

24. Every winding-rope, skid or whip-rope at the shaft or winze at all be provided with a stopper, lynch pin or other efficient fitting.

25. The loaded skips or any wagon in the cage shall not be filled up to such a height that any of the contents can fall out, and the bottom of the cage shall be kept clean.

26. When tools, wood, etc., with which a person going over the top of the cage, skip or bucket are being lowered or hoisted, the projecting ends shall be securely fastened to the rope or bar.

27. When the winding apparatus is not provided with some automatic contrivance to prevent overwinding, a point shall be fixed and marked on the indicator in such a way as to show when the cage or other conveyance is within a distance of less the circumference of the drum from the completion of the wind, and when such cage or conveyance has reached such distance it shall not, if either it or the descending cage contains persons, be raised for the remaining distance at a speed exceeding three miles per hour.

28. In shafts exceeding 300 feet in depth, where persons are raised or lowered by mechanical power, no cage shall be fitted if, in the opinion of the Chief Inspector, such are required to prevent the overwinding of ropes, skips or other conveyances or to safeguard persons liable to be injured in the event of an overwind.

29. At the top of every incline on which the haulage, not being on fixed rope or endless chain haulage, is worked by mechanical power or gravity there shall be stop-blocks or other similar contrivances to prevent wagons from running away. Additional stop-blocks or runaway switches, or some other appliance for arresting or diverting the descent of wagons in the event of a runaway, shall be fixed below the first stop-blocks at a greater distance than the length of a train of wagons. There shall also be provided and attached behind the ascending wagons or train of wagons a backstay, drag, or other suitable contrivance for preventing the wagon or wagons from running back.

30. Where wagons are moved by hand no person shall permit a wagon to run uncontrolled, and, if sprags are necessary, a sufficient number shall be provided by the manager.

31. No person shall ride upon any tub, truck or wagon either underground or aboveground without the permission of the manager.

CHAPTER V.

Mine Workings.

32. No operations shall, without the consent in writing of the Local Government, be carried out within a distance of 150 feet of the boundary of the mining property worked in accordance with these regulations and if any doubt arises as to the point on the said boundary, the Local Government may prohibit the person working the mine from carrying on operations within a specified part of the area held by him until such doubt has been removed by the decision of a competent authority.

33. The permanent supports used within 300 feet of any shaft shall be entirely composed of non-inflammable materials.

34. Where any part of the mine is so situated that there is any danger whatever of an eruption of water into the mine adequate protection against such an eruption shall be provided and maintained.

35. The rules and roads of all shafts, galleries, roads and working places shall be made and kept secure.

36. No mine or other working shall be made below the level of the floor of the lowest gallery in the mine until such precautions for the prevention of the collection of gas and the safety of the workers employed therein as the Inspector may prescribe have been taken.

37. (1) A competent person or persons, appointed for the purpose by the manager, shall within such time, not exceeding two hours before the commencement of work in a shaft, inspect every part of the mine and shall ascertain the condition thereof so far as the presence of gas, ventilation, roof and sides and general safety are concerned. The result of every such inspection shall be recorded in a book kept at the mine for the purpose.

(2) A like inspection shall be made at least twice in the course of each shift, and at least once in every five hours during which the shift continues, of all parts of the mine, but it shall not be necessary to record the result of such inspections in a book unless the last inspection in a shift to be inspected required to be made under sub-regulation (1).

38. Every report shall be made by the person inspecting, either when underground or immediately on his return to the surface, and shall be in full and accurate report of the inspection, specifying whether or not, and where, if anywhere, noxious or inflammable gas was found and whether or not any and, if any, what defects in roof or sides and other causes of danger were observed. The report shall be signed by the person who made the inspection and shall state the date and time of the inspection and the date and time when the report was written.

39. No workman shall enter or be permitted to enter the mine until every part of the mine has been examined in the manner prescribed in Regulation 37 (1).

40. Every place where work is carried on or where men are stationed or pass at all be placed under the charge of a competent person appointed by the manager or underground manager.

41. If any part of a mine is found to be unsafe, all persons except those employed in securing his or in removing the danger shall be withdrawn therefrom by him, the dangerous area, and all approaches to the area shall be securely fenced so as to prevent unauthorised persons entering it until the danger has been removed.

42. No person shall work in any place other than a place in which he has been employed to work by an official of the mine or by any person on whose charge he has been placed by an official of the mine.

CHAPTER VI.

Explosives.

43. (1) The owner, agent or manager shall not store or knowingly allow any other person to store, within the premises of the mine, any explosives otherwise than in accordance with the provisions of rules made under the Indian Explosives Act, 1884.

(2) No explosive shall be stored in the workings of the mine or taken into or kept in a dwelling house.

44. Except in the process of making up to mouth shafts no explosives other than "Permitted Explosives" allowed to be used by an order under the Coal Mines Act, 1911, shall be used in or about the mine.

45. The manager shall appoint in writing a competent person or persons to be in charge of every magazine for the storage of explosives, and no person shall be in charge of a magazine without such written authority.

46. (1) Explosives shall be issued only to competent persons appointed in writing by the manager, and no unauthorised person shall have explosives in his possession.

(2) Explosives unused and left over at the end of a shift shall be returned to the magazine immediately after the end of the shift. Such returned explosives shall be re-issued before fresh stock is used.

47. The person in charge of a magazine shall keep a correct record of the numbers of cartridges of explosives and detonators issued from the magazine to each authorised person, and a similar record of explosives returned to the magazine.

48. No explosive shall be taken into a mine except in secure closed cases or canisters containing not more than five pounds each, and no person shall have in any or keep for use, at one time in any one place, in more than one such case or canister is in use, or is kept for use, shall unless such ground directly intervenes, not be less than 20 feet from a place at which any other such case or canister is in use or is kept for use.

49. Detonators shall be kept in a securely locked box separate from any other explosive and no detonator shall be inserted into the priming cartridge until immediately before it is to be used:

Provided that in the case of a well working, priming cartridges may be prepared at the nearest convenient dry place adjacent to the working.

50. (1) Every charge shall be placed in a properly drilled and placed shot-hole and shall have sufficient stemming. A sufficient supply of clay or other suitable stemming material shall be provided at places convenient to the shot-firers.

(2) No shots shall be simultaneously or fired except by or under the personal direction of a competent person appointed by the manager, by an order in writing, for the purpose.

(3) In the process of charging or stemming for blasting, no person shall use or have in his possession any iron or steel pricker, scraper tamping rod, or any other,

and only clay or other non-inflammable substance shall be used for tamping or stemming.

(5) No explosive shall be forcibly pressed into a hole of unsuitable size.

(6) When a hole has been charged, the explosive shall not be unrammed.

61. (1) The shot-firer shall not fire a shot or allow a shot to be fired until he has examined both the place itself, where the shot is to be fired, and all contiguous ground in places within a radius of 60 feet, and has found such place safe for firing.

(2) The person appointed to fire a shot, when about to fire it, shall give sufficient warning to all persons likely to be endangered by the same.

62. When a working face is separated by less than 30 feet from goaf, or face, no shot shall be fired until the person entitled to fire the shot has ascertained that all persons have been withdrawn from all accessible places which are adjacent to the other face. This precaution shall be taken in the case of every shot or round of shots to be fired.

63. After a shot has been fired the person who fired the shot or a competent person appointed in writing by the manager of the mine shall, before any other person enters the place, make a careful examination and with his assistants make the place safe. No other person shall enter the place until the examination has been made and the place has been declared to be safe in all respects.

64. Where a shot is misfired—

(a) the entrance to the firing place shall be fenced, and no person shall go beyond the fences until the expiration of one hour from the time of firing; but when the shot has been fired by means of an electric apparatus, this interval may be reduced to such time, not being less than ten minutes after the cable has been disconnected from the firing battery, as the manager of the mine may in each case direct;

(b) the official or other competent person in charge of the explosive at the time of the misfire shall report the failure to the manager or under-manager, who shall record the fact in a book to be kept for the purpose; and such official or other competent person shall give information of the failure to such person as may relieve or take over charge from him.

65. No hole shall be bored at a distance of less than 12 inches from any hole where a charge has misfired.

66. Where a misfired charge of explosive has been blasted out, a careful search for cartridges and detonators, if any, shall be made amongst the debris, and, if not located underground, the tube into which the debris is loaded shall be marked and a further search made on the surface.

CHAPTER VII.

Ventilation and Lighting.

67. An adequate amount of ventilation shall be constantly produced in the mine to dilute and render harmless inflammable and noxious gases to such an extent that the working places of the shafts, levels and workings of the mine, and the travelling roads to and from these working places, shall be in a safe state for persons working or passing therein. If the percentage of inflammable gas in the main return airway exceeds 2·0 per cent the mine shall be deemed to be unsafe and the steps prescribed by Regulation 41 shall be taken.

68. Means shall be provided on the surface for testing the ventilation if and when required.

69. At least once in every week the quantity of air at the main air currents and splits shall be measured, and at least once in twenty-four hours a sample of the air in the main return airways shall be taken and analysed, and records of the same shall be maintained in a book to be kept at the mine.

70. Electric lamps connected to a lighting or power circuit shall only be used underground in the main intake airways and shall not be used within 300 feet of any well-chamber. If it is the intention to reverse the direction of the air current the supply of electric current to such lamps shall first be cut off, and the same shall be done in the event of a failure of the air current:

Provided that the Chief Inspector may by order in writing, and subject to such conditions as he may impose, permit the use of self contained lighting apparatus in which electric lamps are supplied from a generator operated by compressed air. All such apparatus shall be of a type approved by the Chief Inspector.

71. Except as provided for in Regulation 70 no lamp of other than an electric lamp of a type approved by the Chief Inspector for use in oil mines shall be used in the mine.

72. (1) All safety lamps shall be kept in a lamp-room and shall be in charge of a lamp-man authorised in writing for the purpose by the manager.

(2) All safety lamps in ordinary use shall be numbered and such record shall be kept of the persons to whom the lamps are issued that the user of any particular lamp can at any time be identified from the record.

(3) The lamp-man shall examine and lock securely all safety lamps before they are taken into the workings for use, and such lamps shall not be used until they have been so examined and found to be in safe working order and securely locked.

73. The lamp-man or other competent person appointed by the manager for the purpose shall examine every safety lamp at the surface immediately before it is taken underground for use and shall secure himself as far as practicable from external observation that each lamp is in safe working order and securely locked.

74. (1) No safety lamp shall be unlocked underground, and a locking on the surface shall only be done at the lamp-room.

(2) No person other than a person authorised by the manager to examine and lock safety lamps shall take or give out for use any safety lamps, or unlock or open or attempt to unlock or open any safety lamp.

75. (1) No person shall have in his possession when underground any unlocked safety lamp, naked light, match, smoking apparatus, or any apparatus of any kind for striking a light, and if it appears to any person that any safety lamp in his possession is defective or unsecure he shall at once remove it from the mine and return it to the person authorised to issue safety lamps.

(2) With the object of preventing any substance such as matches or smoking apparatus being taken into the mine the manager shall arrange for the systematic search of every person immediately before such person enters the mine; and no person shall enter or be permitted to enter the mine until such search has been made. The method of search shall be one which has been approved by the Chief Inspector.

76. No person shall wilfully damage, or improperly use, or by improper means extinguish, any safety lamp.

77. In any underground part of the mine where adequate stationary lights are not in use, every person shall carry a light.

CHAPTER VIII.

Precautions to prevent Fire and Explosions.

78. Electricity for power purposes shall not be used underground except with the consent of the Chief Inspector and under such conditions as he may approve.

79. Air from air compressing plant shall be cleaned and freed from oil fumes before being used underground.

80. An area on the surface round the top of each shaft shall be securely fenced round so as to prevent the ingress of any persons except through gates. This area shall be known as the danger area and notices to this effect shall be prominently displayed.

81. No person shall enter the danger area without the permission of the manager.

82. Within the danger area—

(1) no person shall have in his possession any match, smoking apparatus or means for striking a light;

(2) no person shall light or cause or permit to be lighted or used any fire or naked light;

(3) no inflammable material shall be stored;

(4) except for the materials used in the construction of a temporary smoking screen, no inflammable material shall be used in any building or other construction.

(5) all electric transmission lines shall be armoured or covered in pipes;

(6) all electric motors shall be flame-proof.

83. All oil pipes, whether below or above the surface, shall be inspected daily and constantly maintained in a sound and safe condition.

84. Oil collected or released in the process of mining or by failure in any pipe line shall be continuously collected and removed to the surface in receptacles with oil-tight and gas-tight covers or by pumping through pipe lines.

85. Reasonable precaution shall be made to prevent an outbreak of fire in the mine or the spread of fire. Fire extinguishers shall be provided and placed at important points in the mine. Fire extinguishers shall be tested and examined at intervals not exceeding one month. When in the opinion of an Inspector the provisions made for the above purpose are inadequate he may require such additional precautions as he shall specify to be made.

86. In respect of each wall and each group of walls (wall panel) the owner, agent or manager shall submit to the Chief Inspector a plan and specification showing the arrangements made for safe working, and no drilling shall be undertaken until the approval of the Chief Inspector has been obtained.

87. Wall chambers shall be of such dimensions and constructed of such material as the Chief Inspector shall approve, and drilling shall not be commenced until the owner, agent or manager has submitted to the Chief Inspector a certificate to the effect that the chamber has been constructed in the specified manner.

78. Plans and specifications showing the lay-out, and dimensions of all permanent oil and gas pipe lines and plant shall be submitted to the Chief Inspector, and the work of construction shall not be commenced until his sanction has been given.

79. The mines shall maintain such specially trained rescue staff and equipment as may from time to time be prescribed by the Chief Inspector.

80. No drilling of oil be carried on during such time as any well is mill of water.

CHAPTER IX.

MISCELLANEOUS.

81. (1) Every entrance to a mine from the surface, and the top and all entrances between the top and the bottom, including the shaft (if any), of every working, ventilating, or pumping shaft, and the top of every open excavation shall be kept properly fenced:

Provided that such fence may be temporarily removed for the purpose of repairs or other operations, if proper precautions are used.

(2) Shafts temporarily or permanently out of use and new pits or shafts in course of execution which in dangerous shall be kept properly fenced.

82. Every fly-wheel and all exposed and dangerous parts of the machinery used in and about the mine shall be kept securely fenced.

83. Efficient guards shall be provided for such parts of any machinery and any electrical conductors as may be a source of danger.

84. Where it is necessary to prevent danger to the public every tank or reservoir shall be securely fenced.

85. If any person, when in charge of any machinery, apparatus or appliance used in or about the mine, observes any accident or dangerous flaw therein, he shall immediately report the fact to the manager, engine-wright or other responsible official.

86. Every person shall strictly comply with all lawful orders issued by the manager or such other official as may be empowered by the manager to make the same.

87. No person occupying any position of trust in or about the mine shall delegate another person to do his work without the sanction of the official to whom he is subordinate; and no such person shall absent himself and not having previously obtained permission from such official for the term of his absence or without having been relieved by a competent person.

88. No person shall negligently or wilfully do anything likely to endanger life or limb in the mine, or negligently or wilfully omit to do anything necessary for the safety of the mine or the persons employed therein.

89. No person shall damage, destroy or improperly interfere with anything provided for or used in the working of the mine.

90. No person shall remove or pass through any fence, or remove or pass any danger-signal unless so specially authorised by the manager or an official empowered by the manager in that behalf.

91. No person shall sleep underground.

92. If any person required by these regulations or by any rule or bye-law made under the Act to make any report is unable to write, he shall be present when his report is written for him, and shall have it read over to him, and shall attach his thumb mark to it. The person writing the report shall also put his name at the end together with a statement that it has been read over to the person for whom it was written.

93. The Chief Inspector may, at his discretion, and under such conditions as he may think fit, grant exemption from any of the foregoing regulations.

94. In respect of all matters not expressly provided for in these regulations the working of the mine shall be subject to the control vested in the Chief Inspector.

Notice of Accident.

From

To

THE CHIEF INSPECTOR OF MINES,

Through the ____ District ____ Magistrate of Subdivisional

Dated 19

Sir,

I have the honour to furnish the following particulars of

a fatal accident
a serious accident
an accident by explosion or ignition
a breakdown of gin
an irruption of water
a well getting out of control

which has occurred at the Mine

1 Situation of the mine (village, station, district, province).			
2 Name and postal address of owner.			
3 Name and sex of persons—		Age.	Occupation.
Killed.	Injured.		
4 Date and hour of the occurrence.			
5 Place of the occurrence.			
6 Cause and description.			
7 Classification of accident.*			
8 Nature of injury and, if fatal, cause of death.			

I have the honour to be
Sir,
Your most obedient servant
Owner.
Agent.
Manager.

* Under one or other of the following heads, namely :—
(1) Explosions and ignitions of vapour, inflammable gas or oil; (2) falls of roof; (3) falls of side; (4) in shafts (overwinding); (5) in shafts (cages and chairs breaking); (6) in or at the pit bank (including of cages or machinery); (7) in shafts (falling down shaft); (8) in shafts (falling down shaft); (9) in shafts (miscellaneous); (10) suffocation by gases; (11) by explosives; (12) irruption of water; (13) haulage; (14) by underground railways; (15) by surface machinery; (16) by boilers or pipes bursting; (17) on surface railways or tramways belonging to the mine; (18) by electricity; (19) by wells getting out of control; (20) miscellaneous.

No. M-1015 (1).—In exercise of the powers conferred by section 29 of the Indian Mines Act, 1923 (IV of 1923), the Governor General in Council is pleased to direct that the following further amendment, having been previously published as required by sub-section (1) of section 31 of the said Act, shall be made in the Indian Metalliferous Mines Regulations, 1926, namely :—

In sub-regulation (1) of regulation 1 of the said regulations for the words "other than a coal mine" the words "other than a coal or an oil mine" shall be substituted.

No. M. 1015 (4).—In exercise of the powers conferred by sub-section (1) of section 46 of the Indian Mines Act, 1923 (IV of 1923), the Governor General in Council is pleased to direct that the following further amendments shall be made in the schedule to the notification of the Government of India in the Department of Industries and Labour, No. M 800, dated the 18th April 1930, namely :—

In the said schedule—

(a) For entry 2, the following entry shall be substituted, namely :—

"2. Borings and oil wells in the making or operation of which no person is employed beneath the superficial ground .... All."

(b) In entry 3 after clause (iv) the following clause shall be inserted, namely :—

"(v) Tunnel oil wells ..... All."

Fort St. George, January 27, 1934.
(G.O. No 131, Development).

No. 48.—The following draft of an amendment to the Madras Factories (Amendment) Rules, 1923, published with Development Department Notification No 246, dated the 24th August 1933 at pages 992 to 1007 of Part I of the *Fort St George Gazette*, dated the 11th September 1933, as amended subsequently, which the Governor in Council proposes to make in exercise of the powers conferred by clause (j) of sub-section (2) of section 37 of the Indian Factories Act, 1934 (XII of 1911), is hereby published as required by sub-section (1) of section 39 of the said Act for general information. Notice is hereby given that the draft will be taken into consideration on or after the 30th April 1934 and that any objection or suggestion which may be received from any person with respect thereto before the date aforesaid will be considered by the Governor in Council.

Objections and suggestions should be sent to Government through the Commissioner of Labour.

DRAFT AMENDMENT.

After rule 54-A of the said rules, the following rule shall be inserted, namely :—

"54-B. The manager of a factory shall explain to the employees therein at least once a month in the vernacular or vernaculars in use in the factory, the contents of the notice in Form Q. The manager shall also be responsible for enforcing all the instructions in the notice in Form Q."

Fort St. George, February 13, 1934.

No. 65.—The following notification of the Government of India is republished :—

DEPARTMENT OF EDUCATION, HEALTH AND LANDS.

New Delhi, the 13th January 1934.

No. F.-267/33-A.—The following extracts from a translation of the Decrees issued by the Governor General of Indo-China, dated the 8th March and 6th July 1932, regarding the importation of fruits into Indo-China are published for general information :—

Article No 1.—The importation into Indo-China is authorised of the fruits enumerated in Article No. 2 below if they come from a country which is not declared as infected by the fruit fly (Ceratitis capitata) subject to the condition that such fruits should be accompanied by a certificate from the Phyto-pathological (Plant-Health) Service of the country of origin, and bearing the visa of the administrative authority for the French Colonies or of the French Consular Agent abroad to the effect that the fruits are examined from the attack of the Mediterranean fruit fly (Ceratitis capitata).

The Indo-China Sanitary Police Service may, however, whenever it is considered necessary, inspect the imported fruits and forbid their entry if the inspection shows that they are attacked by the fruit fly.

Article No. 2.—The fruits referred to above are as follows :—

Achras sapota (sapodilla), Anona muricata (Sour-sop), Artocarpus incisa (Bread fruit), Averrhoa carambola, Carica papaya (papaw or papaya fruit), Citrus bigaradia (Seville orange), Citrus indica (Citron), Citrus limonum (lemon), Kumquat (fortunella japonica)

Citrus nobilis (mandarin orange and its hybrids) Citrus aurantium (the bitter orange and its varieties), Citrus japonica (the Chinese orange), Citrus sinensis (the sweet orange and its varieties), Citrus decumana (shaddock, orange fruit), Eryobotrya japonica (Japanese medlar), Garcinia mangostana (Mangosteen), Litchi sinensis (Litchee), Mangifera indica (mango), Persea gratissima (Avocado-pear or pear), Psidium Guajava (Guava), Prunus armeniaca (apricot), Prunus persica (peach), Prunus domestica (plum), Pyrus communis (pear), Pyrus malus (apple)

Article No. 3.—The importation into Indo-China of the fruits enumerated in Article 2 is strictly forbidden when they come from the following countries which are recognised as being infected by the Mediterranean fruit fly (Ceratitis capitata).—

Hawai, Spain, Italy, Sicily, Oregon, Malta, Turkey, Syria, Palestine, Egypt, Tripoli Tunis, Algiers, Cape Colony, Natal, British East Africa, Madagascar, Brazil, Argentine, Bermuda, Azores, Madeira, Canary Islands, Cape Verd, Dahomey, Nigeria, Congo, Delagoa Bay, Rhodesia, Uganda, Mauritius, Australia (West), New South Wales, Victoria, Queensland, New Zealand and Tasmania.

Article No 4.—The Secretary General of the Governor General of Indo-China, the Director of Customs and Taxes and the Director of the Institute of Agricultural Research are entrusted with the execution of the present decrees in so far as each is concerned.

ACQUISITION OF LANDS.

Fort St. George, February 8, 1934.

Whereas it appears to the Government that the lands mentioned below, be the same more or less, are needed for a public purpose, to wit, for the construction of a road from Karuka to the Reserved Forests in the Amarambalam Range, notice is hereby given to all whom it may concern in accordance with the provisions of section 4 (1) of the Land Acquisition Act I of 1894, as amended by the Land Acquisition (Amendment) Act XXXVIII of 1923; and the Governor in Council hereby authorises the Revenue Divisional Officer, Malappuram, his staff and workmen to exercise the powers conferred by section 4 (2) of the Act. INSTRUCTIONS TO CANDIDATES APPEARING FOR THE EXAMINATIONS TO BE HELD IN 1934

Candidates for University Examinations are required to observe the following instructions very carefully:—

1. Strict silence should be maintained in the examination room.

2. Candidates should take their places in the examination hall at least five minutes before the time fixed for giving out the papers. Candidates presenting themselves more than half an hour after the appointed time will not be admitted to the examination hall. Candidates who are undoubtedly suffering from infectious disease of any kind will not be admitted.

Candidates should bring with them to the examination hall, each day of the examination, their hall tickets for inspection by the Chief Superintendent.

3. Candidates are prohibited from writing upon their hall tickets or question papers. Candidates are also prohibited from writing their names or any part of their answer books, but their register numbers should be written very distinctly on the outer cover of each. Failure to write their register numbers may involve the rejection of answer papers.

4. Candidates are not allowed to exceed the time assigned to each paper.

5. No candidate will be allowed to leave the examination room till the expiry of at least half an hour after a question paper has been given out, and no candidate who leaves the room during the period allotted for a paper will be allowed to return within that period.

6. *Candidates are forbidden to ask questions of any kind during the examination. They are further forbidden to communicate with the examiners; should they do so their answers will not be valued, and their conduct will be reported to the Syndicate for disciplinary action.*

Candidates are strictly prohibited from smoking in the Examination room.

7. CANDIDATES ARE NOT ALLOWED THE USE OF BOOKS OF ANY KIND (EXCEPT AS PROVIDED IN RULE 8). THEY ARE ALSO PROHIBITED FROM INTRODUCING INTO THE EXAMINATION ROOM ANY BOOK OR PORTION OF A BOOK, SLATE, MANUSCRIPT OR PAPER OF ANY DESCRIPTION, FROM COMMUNICATING WITH OR COPYING FROM EACH OTHER, AND FROM COMMUNICATING WITH ANY PERSON OUTSIDE THE EXAMINATION ROOM. ANY CANDIDATE DETECTED IN THE VIOLATION OF THESE RULES WILL BE TURNED OUT OF THE ROOM FORTHWITH, AND HIS CONDUCT WILL BE REPORTED TO THE REGISTRAR.

The use of stands at university examinations is not permitted except to students answering paper in Mathematics. The use of mathematical instruments whilst answering papers in Mathematics and in Physical Science will be allowed. Such instruments will not be supplied by the University.

8. Clarke's Mathematical and Physical Tables will be supplied to candidates offering Mathematics, Physics, Chemistry, Geography, Electrical Engineering and Mechanical Engineering of the Intermediate Examination, B.A., B.Sc., B.A. (Honours), B.Sc. (Honours), M.A., B.E.Sc. and B.Sc. (Ag.) Degree examinations and Pre-registration examination only.

An 'earnest' fee of an amount equivalent to the cost of a copy of Mathematical Tables should be deposited with the Chief Superintendent by each student requiring the use of such books, the amount to be refunded on the book being returned. The cost price of each book is seven annas.

9. Candidates for examination in Science subjects are required to submit their laboratory note-books both in the main and the subsidiary subjects to the Examiner concerned on the first day of the practical examination, and to get them back at the close of the examination. *This instruction applies only to candidates appearing from colleges.*

10. Candidates are required to provide themselves with their own pens. Candidates may bring into the examination hall their own ink bottles. They must, however, use only black ink while answering their question papers.

11. Particular attention is requested to the instructions regarding rough working and loose sheets of paper printed on the answer-books. All rough working must be shown on the left-hand page of the answer books themselves. No separate books for rough working will be supplied to candidates. Paper must not be detached from the answer-books of candidates. If the ordinary answer-books are found insufficient, additional books will be allowed and these should be securely fastened to the answer books.

12. AS SOON AS CANDIDATES HAVE FINISHED WRITING THEIR ANSWERS, AND WISH TO GIVE UP THEIR ANSWER-BOOKS, OR AT THE END OF THE PERIOD PRESCRIBED FOR EACH PARTICULAR PART OF THE EXAMINATION, EACH SHOULD STAND UP IN HIS PLACE AND REMAIN STANDING UNTIL ONE OF THE SUPERINTENDENTS HAS COME UP TO HIM AND HAS RECEIVED HIS ANSWER BOOK FROM HIM.

13. Communications to the Registrar from candidates requesting information relating to the results of examinations will not receive attention until after the publication of the results in the *Fort St. George Gazette*.

14. ALL MUFASSAL CANDIDATES MUST OBTAIN THEIR HALL TICKETS FROM THE CHIEF SUPERINTENDENTS OF THE RESPECTIVE CENTRES AT WHICH THEY ARE TO BE EXAMINED, THREE DAYS BEFORE THE COMMENCEMENT OF THE EXAMINATION. MADRAS MEDICAL COLLEGE.

SESSION, 1934-35.

Regulations regarding the admission of L.M.P. Diploma holders to the M.B. & B.S. Degree Examinations.

A candidate who holds the Diploma of L.M.P. or any other qualification accepted by the Syndicate of the University of Madras as equivalent thereto, will be admitted to the Degree of M.B. & B.S., provided—

(a) he has passed the Diploma Examination at least five years before the date of application for the Final M.B. & B.S. Degree Examination ;

(b) he has passed the Intermediate Examination in Arts and Science of this University, or an examination accepted by the Syndicate as equivalent thereto, or an examination accepted by the General Medical Council for entrance to the medical course ;

NOTE.—Provided that for the purpose, the Oxford or Cambridge Senior Local or School Certificate Examination shall be recognized, if the candidate has passed with credit in any three subjects at not less than two sittings.

(c) he has attended a course of study for not less than one academic year in a college of medicine recognized by or affiliated to this University before appearing for the Second M.B. & B.S. Examination ; and not less than one academic year subsequent to passing the Second M.B. & B.S. Examination and before appearing for the Final M.B. & B.S. Degree Examination, during which year the candidate shall be required to produce evidence of having attended clinical course in a medical college recognized by or affiliated to this University ; and

(d) he passes Part II of the First and the whole of the Second and Final M.B. & B.S Examinations of this University.

Explanatory note.

1. Diploma holders may begin the special course three years after passing the Diploma Examination.

2. It is not necessary that Diploma holders should have passed the Intermediate Examination with Physics and Chemistry as two of the three optional subjects prescribed for the Examination.

3. The courses prescribed for the subjects comprising Part II of the First M.B. Examination and Parts I and II of the Second M.B. Examination, may be taken concurrently but candidates will not be permitted to sit for the Second M.B. Examination before they pass Part II of the First M.B. Examination. So also they will not be permitted to commence the course prescribed for the Final M.B. Examination nor will they be allowed to sit for the Final M.B. Examination, before they pass the Second M.B. Examination. Before they appear for the Final M.B. Examination, they should also produce evidence of having attended the required clinical courses.

Candidates may appear for Part II of I M.B privately without putting any course at this College. But admission to the II M.B. course cannot be guaranteed as the number of seats is very limited.

The fees for the courses are as shown below :—

		Rs.
I M.B., Part II	.. Anatomy and Physiology	10 for each of the subjects.
II M.B., Part I	.. Pharmacology	
Do. Part II	.. Hygiene, Pathology and Ophthalmology	
Final M.B., Part I	Medical Jurisprudence.	15.
Do. Part II ..	Medicine, Surgery and Midwifery	30 for each subject.

Students who do not belong to the Madras Presidency should pay fees at twice the above rates.

Preference in selection for admission to this College will be given to candidates who hold Madras L.M.P. Diploma.

The courses will commence on July 1934. On the transmission of a stamped and addressed envelope to the Assistant to Principal, Medical College, Madras, before 15th April 1934, the prescribed form of application will be posted.

The application forms received as above should be correctly filled in and sent to the Principal, Madras Medical College, with the following documents attached thereto so as to reach him not later than 12 noon on Friday, the 20th April 1934. No application received after that date will be accepted :—

(1) Qualification—
- Highest general qualification.
- Highest medical qualification with date of passing.

(2) Migration Certificate in case of candidates belonging to Universities other than Madras.

(3) Conduct certificate.

(4) Permission from superior officer (if in the Public Service).

NOTE.—Selected candidates will be admitted in the course on their own risk as regards the recognition of their qualifications by the University of Madras.

Selected candidates will be intimated in due course. If a selected candidate fails to join the class before the prescribed time, the seat will be forfeited and will be filled up without notice by another candidate.

STATISTICS—CROP—GINGELLY—1933-34—
INTERMEDIATE MONTHLY REPORT.

Sowings of late gingelly are in progress in most districts. In Tinnevelly the season was late by about a fortnight to a month. The condition of the crop is generally satisfactory.

Board (Land Revenue and Settlement),
Madras, 9th February 1934.

STATISTICS—CROP REPORT—PADDY—1933-34—
FINAL REPORT.

The average of the areas under paddy in the Madras Presidency during the five years ending 1931-32 represents 13·3 per cent of the total area under paddy in India.

2. The area sown with paddy in 1933-34 is estimated at 11,570,000 acres as against 11,582,000 acres for the corresponding period of last year and the finally recorded area of 11,533,697 acres in 1932-33. The present estimate exceeds the final area by about 0·4 per cent and the area of 11,160,500 acres in an average year by about 3·6 per cent.

3. 1,085,000 acres have been reported as sown since the last December forecast report was issued. The extent so sown was large in West Godavari, Anantapur, the Carnatic (284,000 acres), Chittoor, North Arcot, Madura, Ramnad (130,000 acres) and Tinnevelly. The area sown in December and January is less than that sown in the corresponding period of last year by 185,000 acres or about 14·6 per cent.

The area under second-crop paddy is expected to be fairly normal.

4. The harvest of paddy outside the Circars is in progress.

The yield is expected to be normal or slightly above normal in Ganjam, Vizagapatam, Kistna, Guntur, Bellary, Anantapur, Nellore, the West Coast and the Hills.

The crop was adversely affected by the heavy rains of October in East Godavari and West Godavari, by the untimely rains in the last week of January in Trichinopoly and Tanjore by cyclonic weather in South Arcot and Tanjore and by the attack of insects in parts of Cuddapah, South Arcot and Trichinopoly. The crop suffered from drought in parts of Chingleput and North Arcot and the rains in December were too late to be of much use. The crop is expected to yield only 6s per cent of the normal in North Arcot, 66 per cent in South Arcot, 73 per cent in West Godavari and 84 per cent in Chingleput.

The seasonal factor for the Presidency works out to 94 per cent of the average as against 100 per cent in the Season and Crop Report of last year. On this basis the yield works out at 101,793,000 cwt. of cleaned rice. This represents a decrease of 5·8 per cent when compared with the estimate of 108,113,000 cwt. in the Season and Crop Report of last year. The yield in an average year is estimated at 102,170,000 cwt.

5. The wholesale price of paddy per imperial maund of 82·2/7 lb. as reported from important markets towards the close of January was Rs. 2-14-0 in Nandyal, Rs. 2-8-0 in Tinnevelly, Rs. 2-3-0 in Cuddapah and Nellore, Rs. 2 in Vizianagram and Trichinopoly, Rs. 1-6-0 in Berhampur and Guntur, Rs. 1-0-0 in Alagulpatam and ranged from Rs. 1-8-0 to Rs. 1-14-0 in the other markets. When compared with the prices reported for December 1933 these prices are stationary in Vizagapatam, Vizianagram, Bezwada, Nandyal, Cuddapah, Nellore and Tinnevelly. They have risen from 3 to 13 per cent in Cocanada, Ellore, Trichinopoly and Madura and are lower by 3 to 15 per cent in the other markets.

6. Figures by districts are given in the statement appended.

Board (Land Revenue and Settlement),
Madras, 13th February 1934.

STATISTICS—CROP REPORT—1933-34—COTTON—FOURTH REPORT.

The average of the areas under cotton in the Madras Presidency during the five years ending 1931–32 represents 9 per cent of the total area under cotton in India.

2. The area under cotton up to the 20th January 1934 is estimated at 2 044,500 acres, when compared with the area of 1 956,100 acres estimated for the corresponding period of last year, it reveals an increase of about 4·5 per cent.

292 200 acres have been reported as sown since the last December forecast was issued. This extent is made up of 136 900 acres under Tinnevelli, 68,800 acres under Cambodia, 36,600 acres under Salems, 35,700 acres under Northerns and Westerns and 14 200 acres under Cocanadas. The area sown in December and January exceeds that sown in the corresponding period of the previous year by 53,700 acres or by about 24 per cent.

3. A decrease in area in the current year occurs in all districts outside East Godavari, the Deccan, Coimbatore and Madura. The increase is marked in the Deccan (+ 118,100 acres).

The area under irrigated cotton mainly Cambodia is estimated at 214,000 acres as against 160,700 acres for the corresponding period of last year, an increase of about 12 per cent.

Picking of the mungari or early sown crop in the Deccan is over. The yield is expected to be slightly below normal.

Normal yields are expected in all districts outside Ganjam, Vizagapatam, Nellore, Bellary, South Arcot, North Arcot, Trichinopoly, Malabar and South Kanara.

4. The seasonal factor for the Presidency works out to 86 per cent of the average as against 95 per cent for the corresponding period of last year. On this basis, the yield works out to 450,000 bales of 400 lb. but as against 420,000 bales for the corresponding period of last year. It is, however, too early to estimate the yield with accuracy as the harvest has not yet commenced in the major portion of the area and much will depend upon the future weather conditions and toll taken by insect pests.

The estimated area and yield under the several varieties are given below :—

(Area in hundreds of acres, yield in hundred of bales of 400 lb. lint.)

5. The whole sale price of cotton (lint per imperial maund of 82⅔ lb. as reported from important markets towards the close of January 1934 was about Rs. 17–3–0 for Cocanadas, Rs. 15–10–0 for red Northerns, Rs. 16–8–0 for white Northerns, Rs. 15–10–0 for Westerns, Rs. 22–2–0 for Cambodia, Rs. 21–3–0 for Karunganni, Rs. 17–13–0 for Nadam and Rs. 20–8–0 for Tinnevellies. When compared with the prices in the previous month, the prices of red and white Northerns are stationary. They are higher by about 13 per cent in the case of Cocanadas and Westerns and by 2 to 5 per cent in the case of the other varieties.

6. Figures by districts are given in Statement No. I. Figures of area by varieties in the Central districts and the South are given in Statement II.

PUBLIC WORKS NOTIFICATION.

NOTIFICATION.

Applications will be received by the undersigned up to 10th March 1934 for apprenticeships in the Berwada Workshops and in the Divi Pumping Station.

1. Two apprentices will be admitted each year for training in the Public Works Workshops at Berwada and two at the Divi Pumping Station, Pallavaram.

2. The period of apprenticeship in the Public Works Workshops at Berwada will be five years and at the Divi Pumping Station three years.

Only candidates with previous technical training who wish to acquire experience on Diesel engines will be admitted as apprentices in the Divi Pumping Station.

3. No one under the age of 15 will be admitted as an apprentice.

4. Every candidate for apprenticeship should produce to the satisfaction of the Officer in charge of the Workshops, testimonials of his educational qualifications (the standard of which must not be below the III form), character and respectability, and a medical certificate from a registered medical practitioner that he is of good physique. Evidence of any technical training undergone by the applicant, may also be sent with the application. Candidates who have relatives serving in the department will be given preference, provided they are up to the mark in other respects.

5. Every selected candidate will be required to deposit a security of Rs. 25. He will be required to work in the Workshops (including the Divi Pumping Station) for the full period of his apprenticeship and to obey all orders and rules in force in the Workshops as that may be issued from time to time.

6. The deposit of Rs. 25 will be returned to the apprentice one month after the termination of the full period of his apprenticeship but the whole amount or a portion thereof will be liable to be forfeited at the discretion of the officer in the charge of the Workshops if the apprentice absents himself without leave or resigns his apprenticeship before the completion of the full period or causes any damage or injury to the machinery, stores, etc., in the Workshops and fails to make good the loss. Should the repair of such damage cost more than the security deposited by the apprentice, he will further be liable to make good the excess.

7. (*a*) *Dress.*—Apprentices while at work should wear khaki shorts and short-sleeved shirts and should wear their hair short, provided there is no objection on religious grounds, as the wearing of loose dress or long hair while working at the machines is dangerous.

(*b*) *Attendance.*—The hours of work in the Berwada Workshops are 6-30 a.m. to 11-30 a.m. and 2-30 p.m. to 5-30 p.m.

The hours of work in the Divi Pumping Station are 6-30 a.m. to 12 noon and 2 p.m. to 5 p.m. on week days and 6-30 a.m. to 12-30 p.m. on Saturdays. During the pumping season the apprentices may be ordered out for duty at any time during the 24 hours. The above hours are liable to alteration at any time by order of the officer in charge of the Workshops.

The apprentices of the Workshops at Berwada and the Divi Pumping Station while at work at the drawing office will attend office from 7-30 a.m. to 11 a.m. and 2-30 p.m. to 5 p.m.

8. The scale of wages per working day for an apprentice in the Public Works Workshops at Berwada will be fixed

by the Executive Engineer, Kistna Central Division within the limits noted below:—

During the first year	.. ..	As. 4 per day.
" second "	.. ..	" 6 "
" third "	.. ..	" 8 "
" fourth "	.. ..	" 12 "
" fifth "	.. ..	Re. 1 "

and the scale of wages per working day for an apprentice in the Divi Pumping Station will be within the limits—

During the first year	.. ..	As. 8 per day.
" second year	.. ..	" 12 "
" third year	.	Re. 1 "

The grant of increments of pay in the second and succeeding year or years will depend entirely on the proved capacity and increased capabilities of the apprentice as judged by the officer in charge of the Workshops. Apprentices who are considered not to have shown sufficient improvement may at the discretion of the officer in charge of the Workshops be given either an increment or a smaller increment than that laid down in the above scales.

9. The course of training in the Public Works Workshops at Bezwada will be approximately as shown below:—

(a) Carpentry	9 months.
(b) Smithy	9 "
(c) Foundry	9 "
(d) Machine shops	9 "
(e) Fitting shop, steam and Oil engine repairs	12 "
(f) Drawing office and design ..	9 "
(g) Final test	3 "
Total	5 years.

The course of training at the Divi Pumping Station will be approximately as under in each year—

Five months' training during normal pumping season on the Diesel and oil engines in the Pumping Station together with fitter and lathe work in the shops as opportunity occurs.

Three months on overhaul of engines.

Four months on closure works—such as floating plant repairs.

Every apprentice at the end of each course and before transfer to the next department will be given a trial to find out what knowledge he has gained and whether he has utilized his time satisfactorily. If he passes his trial he will be transferred to the next department. If he fails he will be allowed to stay a month in the same department, and will then be tried again. If he is still found unfit he will be dismissed. No wages will be paid for this additional month of training.

10. During the last six months, the apprentice in the Public Works Workshops at Bezwada will be required to design and carry out a small job by himself such as a hand drilling machine, a hand pump, etc., to the satisfaction of the officer in charge of the Workshops.

On the satisfactory completion of the apprenticeship a final certificate of completion of apprenticeship will be issued in the prescribed form.

11. Leave will be granted without wages for illness, on production of a medical certificate from a registered medical practitioner, or for other strong reasons. No extension of apprenticeship will be necessary in the case of leave granted on medical certificate or for other reasons, if the period of leave does not exceed one month and if the officer in charge of the Workshops is satisfied with the efficiency of the apprentice; but if the period of leave exceeds one month, the period of apprenticeship will either be extended by the entire period of absence or by the period of excess over one month only, as the Executive Engineer, Kistna Central Division, directs.

12. The Executive Engineer, Kistna Central Division, may terminate an apprenticeship at any time and may discharge an apprentice if his work or conduct is unsatisfactory and may decide what portion of his deposit shall be forfeited to Government.

J. M. FREDERICK,
Executive Engineer, Kistna Central Division.
Bezwada, 8th February 1934.

OFFICIAL ADVERTISEMENTS.

TENDER FOR CONVEYANCE OF MATERIALS BY GOVERNMENT PUNTS OR PRIVATE CARGO BOATS FROM KOLAKUKONDA QUARRY FOR DELTA WORKS IN KISTNA WESTERN DIVISION FOR THE YEAR 1934-35.

TENDERS will be received by the Executive Engineer, Kistna Western Division, at his office at Bezwada up to 4 p.m. on 6th March 1934 for conveyance of materials by Government punts or private cargo boats from Kolakukonda quarry in Kistna Western Division for 1934-35.

Tenders should be in the prescribed form obtainable from the Executive Engineer's office. Tenders presented after 4 p.m. will not be received.

2. Tenders should be submitted in sealed covers and should be submitted to the Executive Engineer, Kistna Western Division, the name of the tenderer and the name of the work being noted on the cover.

If the tender is made by an individual it should be signed with his full name, and his address should be given. If it is made by a firm it shall be signed with the co-partnership name by a member of the firm who shall also sign his own name, and the name and address of such member of the firm shall be given. If the tender is made by a corporation it shall be signed by a duly authorised officer who shall produce with his tender satisfactory evidence of his authorisation. Such tendering corporation may be required before the contract is executed to furnish evidence of its corporate existence.

3. Each tenderer must pay an earnest money a sum of Rs. 500 (rupees five hundred only) into the branch of the Imperial Bank of India or into a Government treasury or sub-treasury within the jurisdiction of the Executive Engineer, Kistna Western Division, to the credit of 'Revenue deposits on behalf of the Executive Engineer, Kistna Western Division,' and enclose with his tender the chalan endorsed accordingly. This earnest money will be refunded to the unsuccessful tenderer on application after intimation is sent of rejection of the tender, or at the expiration of two months from date of tender, whichever is earlier. This refund will be authorized by the Executive Engineer by a suitable endorsement on the chalan. The earnest money will not be received in cash or currency notes by the Public Works Department Officer save in exceptional cases, where there are no treasuries or banks within the jurisdiction of the officer calling for tenders. When currency notes are given, the tenderer should sign his name in full with date on the back of all currency notes given by him, whatever their denominations may be. The earnest money will be retained as security in the case of the successful tenderer and will not carry any interest. It will be returned to him after due fulfilment of the contract.

4. When a tender is to be accepted the tenderer whose tender is under consideration shall attend the Division office on the date fixed by the written intimation to him. He shall forthwith upon intimation being given to him by the Executive Engineer of acceptance of his tender sign an agreement in the proper departmental form for the due fulfilment of the contract.

5. Other conditions of contract and the contract documents can be seen at any time between 11 a.m. and 5 p.m. on office days in the office of the Executive Engineer, Kistna Western Division, Bezwada, from which blank forms of tenders can also be obtained.

6. The rates and the units for the rates should be written both in words and figures. The tender should be written legibly and free from erasures, over-writings or corrections of figures. Corrections, where unavoidable, should be made by crossing out, initialing, dating and re-writing.

7. Tenders offering a percentage deduction from or increase on estimate or Public Works Department current schedule rates which are not open for inspection by tenderers and those not submitted in proper form or in due time will be rejected. Rates for items not called for should not be included in the tender. No alteration which is made by the tenderer in the contract form will be recognized and if any such alterations are made, the tender will be void.

8. No part of the contract shall be sublet without written permission of the Executive Engineer, nor shall transfer be made by power-of-attorney authorizing others to receive payment on the contractor's behalf.

9. The Executive Engineer or other sanctioning authority reserves the right to reject any tender or all the tenders without assigning any reason therefor.

10. No deduction for voids in materials stacked will be made if the stacking is done closely and properly; and in case of loose or improper packing, a suitable percentage deduction will be made by the officers taking measurements or checking them, especially the subordinate immediately in charge, Subordinate Officer, P.C. subdivision or Executive Engineer, Kistna Western Division. Complete restacking is required by the contractor at his own expense, in case loose or improper stacking is observed or ordered to be done.

TENDER FOR CONVEYANCE OF MATERIALS BY GOVERNMENT PUNTS OR PRIVATE CARGO BOATS FOR SET WORKS OF KISTNA RIVER IN KISTNA WESTERN DIVISION FOR THE YEAR 1934-35.

Tenders under piecework system will be received by the Executive Engineer Kistna West n Division at his office at Bezwada up to 4 p.m. on the 9th March 1934 for conveyance of materials by Government punts or private cargo boats for the new set works of Kistna river in Kistna Western Division for 1934-35.

Tenders should be in the prescribed form obtainable from the Executive Engineer's office. Tenders presented after 4 p.m. will not be accepted.

2. Tenders should be submitted in sealed covers and should be addressed to the Executive Engineer, Kistna Western Division, the name of the tenderer and the nature of the work being noted on the cover.

If the tender is made by an individual it should be signed with his full name, and his address should be given. If it is made by a firm it shall be signed with the co-partnership name by a member of the firm who shall also sign his own name, and the name and address of each member of the firm shall be given. If the tender is made by a corporation it should be signed by a duly authorised officer who shall produce with his tender satisfactory evidence of his authorisation. Such tendering corporation may be required before the contract is executed to furnish evidence of its corporate existence.

3. Each tenderer must pay an earnest money, a sum of Rs. 200 (rupees two hundred only) into the branch of the Imperial Bank of India or into a Government treasury or sub-treasury within the jurisdiction of the Executive Engineer, Kistna Western Division, to the credit of 'Security Deposits on behalf of the Executive Engineer, Kistna Western Division,' and enclose with his tender the chalan endorsed accordingly. This earnest money will be refunded to the unsuccessful tenderer on application after intimation is sent of rejection of the tender or at the expiration of two months from date of tender whichever is earlier. This refund will be authorised by the Executive Engineer by a suitable endorsement on the chalan. The earnest money will not be received in cash or currency notes by the Public Works Department officers save in exceptional cases, when proper and sufficient reasons are given in the form of the officer calling for tenders. When currency notes are given, the tenderer must keep his name in full with date on the back of all currency notes given by him, whatever their denominations may be. The earnest money will be retained in the case of the successful tenderer and will not carry any interest.

4. When a tender is to be accepted, the tenderer whose tender is under consideration shall attend the Divisional office on the date fixed by the written intimation to him. He shall furnish with such intimation being given to him by the Executive Engineer of acceptance of his tender such agreement in the proper departmental form for the due fulfilment of the contract. He shall also within seven days of such signing of the contract make a further security deposit of a sum of Rs. 400 (rupees four hundred only) in one of the forms prescribed in the Madras Public Works Department Code which deposit together with the earnest money and withheld amounts if any, will be retained as security for the due fulfilment of the contract. If a cash security deposit is made by the contractor he shall follow the procedure laid down in the preceding paragraph for payment of earnest money and such deposit will not bear interest. Failure to enter into the required agreement or to make the security deposit as defined in this paragraph shall entail forfeiture of the earnest money. The security will be refunded on due fulfilment of the contract.

5. Other conditions of contract and the various documents can be seen at any time between 11 a.m. and 5 p.m. on office days in the office of the Executive Engineer, Kistna Western Division, Bezwada, from which blank forms of tenders can also be obtained.

TENDER FOR QUARRYING AND SUPPLYING MATERIALS FROM KOLANUKONDA QUARRY BOTH SIDES IN KISTNA WESTERN DIVISION FOR THE YEAR 1934-35.

Tenders will be received by the Executive Engineer, Kistna Western Division, at his office at Bezwada up to 4 p.m. on 30th March 1934 for quarrying and supplying materials from Kolanukonda quarry both sides in Kistna Western Division for 1934-35.

Tenders should be in the prescribed form obtainable from the Executive Engineer's office.

2. Tenders should be submitted in sealed covers and should be submitted to the Executive Engineer, Kistna Western Division, the name of the tenderer and the name of the work being stated on the cover. Tenders presented after 4 p.m. will not be received.

If the tender is made by an individual it should be signed with his full name and his address should be given.

If it is made by a firm it shall be signed with the copartnership name by a member of the firm who shall also sign his own name; and the name and address of each member of the firm shall be given. If the tender is made by a Corporation, it shall be signed by a duly authorised officer who shall produce with his tender satisfactory evidence of his authorization. Such tendering corporation may be required before the contract is executed to furnish evidence of its corporate existence.

2. Each tenderer must pay as earnest money a sum of Rs. 300 (Rupees three hundred only) for each section work for which the tender is intended, into the branch of the Imperial Bank of India or into a Government treasury or sub-treasury within the jurisdiction of the Executive Engineer, Kistna Western Division, to the credit of "*Revenue Deposits on behalf of the Executive Engineer, Kistna Western Division*" and enclose with his tender the challan endorsed accordingly. The earnest money will be supplied to the unsuccessful tenderer on application after intimation is sent of acceptance of the tender or at the expiration of two months from date of tender whichever is earlier. The refund will be authorized by the Executive Engineer by a suitable endorsement on the challan. The earnest money will not be received in cash or currency notes by the Public Works Department Officer save in exceptional cases, where there are no treasuries or banks within the jurisdiction of the officer calling for tenders. When currency notes are given, the tenderer should sign his name in full with date on the back of all currency notes given by him whatever their denominations may be. The earnest money will be returned as security in the case of the successful tenderer, and will not carry any interest.

3. When a tenderer is to be accepted the tenderer whose tender is under consideration shall attend the Division office on the date fixed by the written intimation to him. He shall forthwith upon intimation being given to him by the Executive Engineer of acceptance of his tender sign an agreement in the proper departmental form for the due fulfilment of the contract. Failure to enter into the required agreement shall entail forfeiture of the earnest money.

4. Conditions of contract and the contract documents can be seen at any time between 11 a.m. and 5 p.m. on office days in the office of the Executive Engineer, Kistna Western Division, Bezwada, from which blank forms of tenders can also be obtained.

5. Every tenderer is expected before quoting his rate to inspect the site of the proposed test. The Government will not after acceptance of contract rate pay any extra charges for lead or for any other reason, in case the contractor is found later on to have misjudged in quoting his rates.

6. The rates and the units for the rates should be written both in words and figures. The tender shall be written legibly and free from erasures, over-writings or conversions of figures. Corrections where unavoidable should be made by crossing out, initialling, dating, and rewriting.

7. The tenderer should work out his own rates, without reference being made to the Public Works Department current schedule of rates or to the Public Works Department estimate rates which are not open for inspection by tenderers. Tenders not submitted in proper form or in due time will be rejected. Rates for items not called for should not be included in the tender. No alteration which is made by the tenderer in the contract form will be recognized and if any such alterations are made, the tender will be void.

8. No part of the contract shall be sublet without written permission of the Executive Engineer nor shall transfer be made by power-of-attorney authorising others to receive payment on the contractor's behalf.

10. The Executive Engineer or other sanctioning authority reserves the right to reject any tender or all the tenders without assigning any reasons therefor.

11. All materials required by the Public Works Department should be supplied without delay as per specifications that will be attached in the agreement and for the rate tendered in the schedule. No deduction for voids in materials stacked will be made if the stacking is done closely and properly; and in case of loose or improper packing, a suitable percentage deduction will be made by the officer taking measurements or checking them, or penalty the subordinate immediately in charge, Sub-Divisional Officer, R.C. Subdivision, or Executive Engineer, Kistna Western Division. Complete restacking is required by the contractor at his own expense, in case loose or improper stacking is observed or ordered to be done.

12. Materials must be delivered, loaded and stacked on the punts or cargo boats within twenty-four hours of the arrival of the launch at the canal bank, failing which a fine will be imposed equal to the hamage rate paid to the conveyance contractor for every twenty four hours delay or fraction thereof. In case of materials to be delivered and stacked in engines the demurrage that may be charged by the railway also to the delay in loading will also be recovered.

13. The tenderer must bind himself to work the quarry to the satisfaction of the Executive Engineer, Kistna Western Division, or other officer deputed by him.

14. The contractor is not allowed to make private sales of quarry materials.

15. In consideration of the contractor being allowed to use the tram line and trucks free of hire he will be held responsible for the proper upkeep of the tram line and trucks and return of the same in good order. The full cost of repairs to the plant and tram line will be borne by the contractor. The cost of rectifying any special damages other than those due to fair wear and tear caused to the tramway plant entrusted to the contractor should also be borne by him. If the repairs to the tram line and trucks referred to above are not carried out by the contractor within a reasonable time as fixed by the Executive Engineer, Kistna Western Division the above will be carried out by the Public Works Department and the expenditure including rentage charges recovered from the sums due to the contractor.

16. The quarry and the precincts of the basin of the canal should be kept clean of rubbish and heaped back as cleared at the termination of agreement or at the time defined in the succeeding clause. The contractor has no lease on the quarry but he is permitted to occupy it only for supplying Government materials.

17. If the quarry is required by the Public Works Department at any time the contractor must stack any materials quarried and lying in the quarry within ten days of written notice to vacate the quarry and shall not be entitled to remove any material not required by the Public Works Department, or not taken over by the Public Works Department within the aforesaid period nor is he entitled to any compensation for any other loss he may sustain from whatever cause arising by reason of order to vacate the quarry. The agreement will automatically be terminated by such order to vacate the quarry.

18. The contractor will be paid on the accepted measurements at the unloading station.

19. The contractor shall conform himself as his authorised agent, to the rules and regulations made under the Indian Mines Act, IV of 1923, except in cases where exemption is granted to him specifically in writing.

20 Materials should be stacked as per notes 2 and 3 in Section I—Materials (page 17) of the Madras detailed Standard Specifications.

TENDER FOR WORKS IN THE VARIOUS SET-WORKS OF KISTNA RIVER IN KISTNA WESTERN DIVISION FOR 1934-35.

Tenders under piecework system for labour will be received by the Executive Engineer, Kistna Western Division, at his office at Bezwada up to 4 p.m. on the 8th March 1934 for the works in the various sets of Kistna river in Kistna Western Division for 1934-35.

Tenders should be in the prescribed form obtainable from the Executive Engineer's office. Name of the set work for which the tender is submitted should be specified. Separate tenders should be sent for each set work. Tenders presented after 4 p.m. will not be received.

2. Tenders should be submitted in sealed covers and should be submitted to the Executive Engineer, Kistna Western Division, the name of the tenderer and the name of the work being noted on the cover.

If the tender is made by an individual it should be signed with his full name and his address should be given. If it is made by a firm, it should be signed with the co-partnership name by a member of the firm who shall also sign his own name and the name and address of each member of the firm shall be given. If the tender is made by a corporation it shall be signed by a duly authorised officer who shall produce with his tender satisfactory evidence of his authorisation. Such tendering corporation may be required before the contract is executed to furnish evidence of its corporate existence.

3. Each tenderer must pay as earnest money a sum for each set as noted below into the branch of the Imperial Bank of India or into a Government treasury or sub-treasury within the jurisdiction of the Executive Engineer, Kistna Western "Division, to the credit of Revenue Deposits—Western Division" and enclose with his tender the challan ordered accordingly. This earnest money will be refunded to the unsuccessful tenderer, on application, after intimation is sent of rejection of the tender or at the expiration of two months from date of tender whichever is earlier. This refund will be authorised by the Executive Engineer by a suitable endorsement on the challan. The earnest money will not be received in cash or currency notes by the Public Works Department officers save in exceptional cases where there are no treasuries or banks within the jurisdiction of the officer calling for tenders. When currency notes are given, the tenderer should sign his name in full with date on the back of all currency notes given by him whatever their denominations may be. The earnest money will be retained as security in the case of the successful tenderer and will not carry any interest. It will be dealt with as settled in the agreement clauses.

4. When a tender is to be accepted, the tenderer whose tender is under consideration shall attend the Division office on the date fixed by the written intimation to him. He shall forthwith upon intimation being given to him by the Executive Engineer of acceptance of his tender sign an agreement in the proper departmental form for the due fulfilment of the contract. Failure to enter into the required agreement shall entail forfeiture of the earnest money.

5. The tenderer shall examine closely the Madras Detailed Standard Specifications and also Standard Preliminary Specification contained therein, and sign the Divisional Office copy of the Madras Detailed Standard Specifications and its addenda volumes in token of such study before submitting his tender unit rates which shall be for finished work in situ. He shall also carefully study the drawings and additional specifications and all the documents which form part of the agreement to be entered into by the accepted tenderer. The Madras Detailed Standard Specifications and other documents connected with the contract such as specifications, plans, descriptive specification sheet regarding water sls, etc., can be seen at any time between 11 a.m. and 4 p.m. on office days in the office of the Executive Engineer, Kistna Western Division.

6. Every tenderer is expected before quoting his rate to inspect the site of the proposed set. The Government will not after acceptance of a contract rate pay any extra charges for lead or for any other reason in case the contractor is found later on to have misjudged in quoting his rates. Attention of the contractor is directed to the "Preliminary specifications" regarding payment of scarcements, lead, lift, etc.

7. The tenderer's particular attention is drawn to the sections and clauses in the "Standard Preliminary Specification" dealing with—

(1) water and lighting,
(2) cleaning up during progress and for delivery,
(3) headlands,
(4) delays,
(5) particulars of payment.

The contractor should closely peruse all the specification clauses which govern the rates which he is tendering.

8. The rates and the units for the rates should be written both in words and figures. The tender shall be written legibly and free from erasures, over-writings, or corrections of figures corrections where unavoidable should be made by crossing out, initialling, dating and re-writing.

9. The tenderer should work out his own rates without reference being made to the Public Works Department current schedule of rates or to the Public Works Department estimate rates which are not open for inspection by tenderers, and tenders not submitted in proper form or to the time will be rejected. Rates for items not called for should not be included in the tender. No alteration which is made by the tenderer in the contract form will be recognised and if any such alterations are made, the tender will be void.

10. No part of the contract shall be sublet without written permission of the Executive Engineer nor shall transfer be made by power-of-attorney authorizing others to receive payment on the contractor's behalf.

11. If further necessary information is required the Executive Engineer of the division will furnish such, but it must be clearly understood that tenders must be received in order, and according to instructions.

12. The Executive Engineer or other sanctioning authority reserves the right to reject any tender or all the tenders without assigning any reasons therefor.

Note.—The tenderer shall at his own cost—

(1) provide rods, stakes, ropes and labour required in setting out the work,

(2) arrange for protection work during inclement weather,

(3) supply all water required for the work and workmen; and

(4) clean away all dirt, rubbish, superfluous materials and debris as they accumulate.

TENDER FOR QUARRYING AND SUPPLYING STONE, ETC., AT SITANAGRAM AND TADPALLI QUARRIES IN KISTNA WESTERN DIVISION FOR THE YEAR 1934-35.

Tenders will be received by the Executive Engineer, Kistna Western Division, at his office at Bezwada up to 4 p.m. on the 20th March 1934 for quarrying and supplying stone, etc., at Sitanagram and Tadepalli quarries in Kistna Western Division for 1934-35.

2. Tender should be on the prescribed form obtainable from the Executive Engineer's office. Tenders presented after 4 p.m. will not be received.

2. Tenders should be submitted in sealed covers and should be addressed to the Executive Engineer, Kistna Western Division, the name of the tenderer and the nature of work being noted on the cover.

If the tender is made by an individual it should be signed with his full name and his address should be given. If it is made by a firm it shall be signed with the co-partnership name by a member of the firm who shall also sign his own name, and the name and address of each member of the firm shall be given. If the tender is made by a corporation it shall be signed by a duly authorized officer who shall produce with his tender satisfactory evidence of his authorization. Each tendering corporation may be required before the contract is executed to furnish evidence of its corporate existence.

3. Each tenderer must pay an earnest money, a sum of Rs 250 (two hundred and fifty only) into the branch of the Imperial Bank of India or into a Government treasury or sub-treasury within the jurisdiction of the Executive Engineer, Kistna Western Division, to the credit of "Revenue Deposits on behalf of the Executive Engineer, Kistna Western Division," and enclose with his tender the challan endorsed accordingly. This earnest money will be refunded to the unsuccessful tenderer on application, after intimation is sent of rejection of the tender or at the expiration of two months from date of tender, whichever is earlier. This refund will be authorized by the Executive Engineer by a suitable endorsement on the challan. The earnest money will not be received in cash or currency notes by the Public Works Department Officer, barring in exceptional cases where there are no treasuries or banks within the jurisdiction of the officer calling for tenders. When currency notes are given, the tenderer should sign his name in full with date on the back of all currency notes given by him whatever these denominations may be. The earnest money will be returned as security in the case of the successful tenderer and will not carry any interest.

4. When a tender is to be accepted the tenderer whose tender is under consideration shall attend the Division Office on the date fixed by the written intimation to him. He shall forthwith upon intimation being given to him by the Executive Engineer of the acceptance of his tender, sign an agreement in the proper departmental form for the due fulfilment of the contract. Failure to enter into the required agreement shall entail forfeiture of the earnest money.

5. Other conditions of contract and the contract documents can be seen at any time between 11 a.m. and 5 p.m. on office days at the office of the Executive Engineer, Kistna Western Division, Bezwada, from which blank forms of tenders can also be obtained.

6. Every tenderer is accepted, before quoting his rate, to inspect the locality. The Government will not, after acceptance of a contract rate pay any extra charges for lead or for any other reason in case the contractor is found later on to have misjudged in quoting his rates.

7. The rates and the units should be written both in words and figures. The tender shall be written legibly and free from erasures, over-writings or conversions of figures. Corrections where unavoidable should be made by drawing out and initialing, dating and rewriting.

8. Tenders offering a percentage deviating from, or the reverse in relation to Public Works Department current schedule rates which are not open for inspection by tenderers, and those not submitted in proper form or on time will be rejected. Rates for items not called for should not be included in the tender. No alteration which is made by the tenderer in the contract form will be recognized and if any such alterations are made, the tender will be void.

9. No part of the contract shall be sublet without written permission of the Executive Engineer nor shall transfer be made by power-of-attorney authorizing others to receive payment on the contractor's behalf.

10. The Executive Engineer or other sanctioning authority reserves the right to reject any tender or all the tenders without assigning any reasons therefor.

11. The conditions of the tender will be as follows:—

(a) All materials required by the Public Works Department should be supplied as per specification that will be attached to the agreement without delay, for the rate tendered in the schedule.

(b) Materials must be delivered loaded and stacked on the pials or cargo boats within twenty four hours of the arrival of the boats at the canal bank, failing which a fine will be imposed equal to the tonnage rate paid to the conveyance contractor for every twenty four hours' delay or fraction thereof. For stacking the Madras Detailed Standard Specifications should be followed, note 2 and 3, Section I.

(c) The tenderer must hand himself to work the quarry to the satisfaction of the Executive Engineer, Kistna Western Division, or any other officer deputed by him.

(d) The contractor must not make private sales of quarry materials.

(e) The quarry should be kept clean of rubbish and handed back as cleared at the termination of agreement or at the time defined in the succeeding clause. The contractor has no lease on the quarry but is permitted to occupy it only for supplying Government materials.

(f) The contractor must stack any material quarried and lying in the quarry required by the Public Works Department within ten days of written notice to vacate the Public Works Department quarry and shall not be entitled to remove any material not required by the Public Works Department or not taken over by the Public Works Department, within the aforesaid period nor is he entitled to any compensation for any other loss he may sustain from whatever cause arising by reason of order to vacate the quarry. The agreement will automatically be terminated by such order to vacate the quarry.

(g) The contractor will be paid on the accepted measurements at the unloading station.

(h) The contractor shall conform, himself or his authorized agent, to the rules and regulations made under the Indian Mines Act, IV of 1923, except in cases where exemption is granted to him specifically in writing.

(i) No deduction for voids in materials stacked will be made if the stacking is done closely and properly; and in case of loose or improper packing, a suitable percentage deduction will be made by the officer taking measurements or checking them, especially the subordinate immediately in charge, Subdivision Officer, R.C. Subdivision or Executive Engineer, Kistna Western Division. Complete restacking is required by the contractor at his own expense, in case loose or improper stacking is observed or ordered to be done.

5. The tenderer shall examine closely the Madras Detailed Standard Specifications, and also the Standard Preliminary Specification contained therein, and obtain the Divisional office copy of the Madras Detailed Standard Specifications and its addenda relating to taken of such supply before submitting his tender quite rates which shall be for finished work in situ. He shall also carefully study the drawings and additional specifications and all the documents which form part of the agreement to be entered into by the accepted tenderer. The Madras Detailed Standard Specifications and other documents connected with the contract such as specifications, plans, descriptive specification sheet regarding materials, etc., can be seen at any time between 11 a.m. and 5 p.m. on office days in the office of the Executive Engineer, Kistna Special Division.

6. The tenderer's attention is directed to the requirements for materials under the clause "Materials and Workmanship" in the "Preliminary specification."

7. Every tenderer is expected, before quoting his rates, to inspect the site of the proposed work. He should also inspect the quarries, and satisfy himself about the quality and availability of materials. The names of quarries, kilns, etc., wherefrom certain materials are to be obtained will be given in the descriptive specification sheet. The best class of materials to be obtained from the quarries or other sources defined shall be used on the work. In every case the materials must comply with the relevant standard specification. Samples of materials as called for in the standard specifications, or in the tender notice, as are required by the Executive Engineer in any case, shall be submitted for the Executive Engineer's approval before the supply to site of work is begun. If the contractor, after examination of the source of materials defined in the descriptive specification sheet is of opinion that materials complying with the standard or other specifications of the contract cannot be obtained in quality or sufficient quantity from the sources defined in the descriptive specification sheet, he shall so state clearly in his tender and state wherefrom he intends to obtain materials, subject to the approval of the Executive Engineer.

The Government will not, however, after acceptance of a contract rate pay any extra charges for lead or for any other reason, in case the contractor is found later on to have misjudged the materials available. Attention of the contractor is directed to the standard "Preliminary Specification" regarding payment of seigniorage, tolls, etc.

8. The tenderer's particular attention is drawn to the sections and clauses in the standard "Preliminary specification" dealing with—

(1) test, inspection and rejection of defective materials and work;
(2) carriage;
(3) construction plant;
(4) water and lighting;
(5) clearing up during progress and for delivery;
(6) mendants.

The contractor should closely peruse all the specification clauses which govern the rates which he is tendering.

9. A schedule of quantities accompanies this tender notice. It shall be definitely understood that the Government does not accept any responsibility for the correctness or completeness of this schedule, and that this schedule is liable to alterations by omissions, deductions, or additions at the discretion of the Executive Engineer, Kistna Special Division, or as set forth in the conditions of contract. He should quote specific rates for each item in the schedule and the rates should be in rupees, annas and in words of three pies. The rates should be written both in words and figures and the units in words. The tenderer should also show the totals of each item and the grand total of the whole contract. The tender should be written legibly and free from erasures, overwritings or conversions of letters. Corrections, where unavoidable, should be made by crossing out, initialling, dating, and rewriting.

10. Tenders offering a percentage deduction from or increase on the estimate amount and those not admitted in due time will be rejected. Rates or lump sum amounts for items not called for shall not be included in the tender.

13. The tenderer should work out his own rates, without reference being made to the Public Works Department current schedule of rates or to the Public Works Department estimate rates which are not open for inspection by tenderers.

12. No part of the contract shall be sublet without written permission of the Executive Engineer nor shall transfer be made by power of attorney authorizing others to receive payment on the contractor's behalf.

13. If further necessary information is required, the Executive Engineer of the division will furnish such, but it must be clearly understood that tenders must be received in order, and according to instructions.

14. The Executive Engineer or other sanctioning authority reserves the right to reject any tender or all the tenders without assigning any reason therefor.

15. No extra payment will be made for any laying of water that may be required during the execution of work. The same shall be included in the rates for the respective items.

16. Tenderers may tender for one or more of the above mentioned six items; when a tenderer desires to tender for more than one item, the tender for each of the items must be sent in a separate sealed cover together with the enclosed challan for the earnest money.

T. N. VENKATARAMA AYYAR,
Executive Engineer, Kistna Special Division.

Bezwada, 6th February 1934.

TENDER FOR SUPPLY OF SMALL STORES FOR 1934-35—KISTNA CENTRAL DIVISION.

Tenders will be received by the Executive Engineer, Kistna Central Division, at his office at Bezwada up to 3 p.m. on 20th March 1934 for supply of small stores for 1934-35 for Kistna Central Division, Bezwada.

2. The tenders should be submitted in sealed covers, the name of the tenderer and the name of work being noted on the cover and should be addressed to the Executive Engineer, Kistna Central Division, Bezwada. The tender should be in the prescribed form obtainable from the office of the Executive Engineer, Kistna Central Division, Bezwada.

3. (a) Each tender should be accompanied by a treasury challan in support of the payment of the earnest money of Rs. 100 into a Government treasury or sub-treasury or the branch of Imperial Bank of India, Bezwada, within the jurisdiction of the Executive Engineer, Kistna Central Division, to the credit of the Executive Engineer, Kistna Central Division, under the head Civil (Revenue) deposits specially noted on the challan.

(b) In the case of parties whose tenders are not accepted the earnest money will be refunded only by means of endorsement by the Executive Engineer, Kistna Central Division, on the challans themselves, which should be presented to the treasury or bank for refund of the amount.

(c) The parties should make their own arrangements to have the chalns sealed.

4. Tenders will be opened by the Executive Engineer, Kistna Central Division. The Executive Engineer will reserve to himself the right of rejecting all or any of the tenders without assigning any reasons for so doing.

5. As soon as the acceptance of the tender is notified, the successful tenderer will be required to deposit a further sum of Rs. 100 which with the earnest money of Rs. 100 received will be held as security for the due fulfilment of the contracts and be carried to the credit of the Government (Executive Engineer, Kistna Central Division), if so considered by the Executive Engineer.

6. The successful tenderer will also be required to sign an agreement in the proper departmental form for the due fulfilment of the contract under piece-work system.

7. Failure to comply with conditions 5 and 6 above within seven days from the date of receipt of the intimation of acceptance of the tender from the Executive Engineer will entail forfeiture of the earnest money and will also involve cancellation of the contract.

8. The contract must not be sublet.

9. Other conditions of the contract and contract documents may be seen at any time between 11 a.m. and 2 p.m. on office days in the Kistna Central Division office from which blank forms of tender may be had free of charge.

10. In the event of a tender being submitted by a firm, it must be signed separately and severally by each member thereof or in the event of absence of any partner, it must be signed on his behalf by a person holding power of attorney authorising him to do so and the power of attorney should also be produced when required for reference.

11. No alterat ons which are made by the tenderers in the contract documents will be recognised unless duly attested and if corrections or overwritings are made the tender will be liable to rejection.

12. Notice will not be taken of any rates or L.S. amounts for items not called for, if tendered by the contractor will not be taken notice of.

13. Any tender not received in order and according to instructions given above and in due time will not be considered.

14. The articles must each be the best of its kind and quotations will include the cost of the containers in which the articles are delivered. Articles are to be supplied as and when required on written indents only.

15. The tenderer should quote rates and the units for the rates not only in figures but also in words.

16. When once the rates tendered are accepted they will not be revised under any circumstances.

Bill No. 7 of 1934.—Madras Local Authorities Entertainments Tax (Amendment) 69

SUPPLEMENT.—
Report of Select Committee on the Bill further to amend the Madras Impartible Estates Act, 1904
(Bill No. 17 of 1933).—Cuddapah.
Bill No. 1 of 1934.—Madras Town-Planning (Amendment).—Tamil, Telugu and Kanarese.

Bill to be introduced in the Council of the Governor of Fort St. George assembled for the purpose of making Laws and Regulations.

Under rule 18 of the Madras Legislative Council Rules, the following Bill, together with the Statement of Objects and Reasons, is published for general information :—

BILL No. 7 OF 1934.

A Bill to amend the Madras Local Authorities Entertainments Tax Act, 1926, for certain purposes.

WHEREAS it is expedient to amend the Madras Local Authorities Entertainments Tax Act, 1926, for the purposes hereinafter appearing ; Madras Act V of 1927.

It is hereby enacted as follows :—

1. This Act may be called the Madras Local Authorities Entertainments Tax (Amendment) Act, 1934. Short title.

2. In sub-section (5) of section 3 of the Madras Local Authorities Entertainments Tax Act, 1926— Amendment of section 3, Madras Act V of 1927.

(i) after the words "substantial portion of the income is derived," the words "or is likely to be derived" shall be inserted ; and

(ii) after the existing proviso, the following proviso shall be added, namely :—

"Provided further that in cases of urgency, an application under this sub-section may be made on behalf of the local authority concerned, by the Commissioner in the case of the Corporation of Madras, by the executive authority in the case of any other municipality and by the president in the case of a local board. A report of such application having been made shall be made to the local authority at its next meeting."

STATEMENT OF OBJECTS AND REASONS.

Under sub-section (5) of section 3 of the Madras Local Authorities Entertainments Tax Act, 1926 (Madras Act V of 1927), which relates to the levy of entertainments tax in areas situated within the limits of one local authority but within five miles of the limits of another local authority, on the application of the latter authority two essential conditions have to be satisfied, namely :—

(1) there should be an application from the latter local authority in respect of each individual place of entertainment ; and (2) the Local Government have to be satisfied that a substantial portion of the income is derived from the area of that local authority. For complying with the first condition, it is necessary that the local authority concerned should meet and decide in each case whether an application should be made or not ; and it is not easy to fulfil either this condition or the second condition where the entertainment lasts only for a short period It is therefore considered desirable to amend sub-section (5) of section 3 of the Act so as to provide (*a*) for the Local Government sanctioning the levy of the tax after satisfying themselves that a substantial portion of the income is likel to be derived from the local area concerned and (*b*) for the executive authority of the local authority concerned making an application on its behalf in cases of urgency.
